QUICK SAN 10

ACTIVE INGREDIENTS:
- Octyl Decyl Dimethyl Ammonium Chloride ........................................ 3.0%
- Didecyl Dimethyl Ammonium Chloride ........................................ 1.5%
- Dioctyl Dimethyl Ammonium Chloride ........................................ 1.5%
- Alkyl (C14 50%, C12 40%, C16 10%)
  - dimethyl benzyl ammonium chloride ........................................ 4.0%

INERT INGREDIENTS: ........................................................................ 90.0%

TOTAL ...................................................................................... 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER PELIGRO
See right panel for additional precautionary statements.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame. Do not mix with oxidizers, anionic soaps and detergents.

ENVIRONMENTAL HAZARD
Quick San 10 is toxic to fish.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

CONTAINER DISPOSAL/Pesticide Storage/Residue Removal: Non-refillable container. Store only in original container. Do not reuse empty container. Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use. Triple rinse as follows: Fill container 1/4 full with water and reseal the container. Agitate vigorously and dispose of rinsate. Repeat two more times. Wrap container and put in trash or offer for recycling if available.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOOD CONTACT SANITIZING DIRECTIONS

Before use, follow the instruction, food products and packaging materials must be removed from the room or carefully protected. Follow all steps in a manner consistent to the labeling. When necessary, use a longer contact time. Thoroughly wash or flush objects with a good detergent or compatible cleaner in abundance. Then use a wet, cloth or absorbent cloth to dry with a dry cloth or absorbent cloth. A thorough wash must be removed from the room or carefully protected. Thoroughly wash or flush objects with a good detergent or compatible cleaner in abundance. Then use a wet, cloth or absorbent cloth to dry with a dry cloth or absorbent cloth. A thorough wash must be removed from the room or carefully protected.

PREPARATION OF DISINFECTING/ANTIVIRAL USE SOLUTION

Mix 3 ounces of this product with 50 gallons of water (400 ppm active) to disinfect hands, non-porous, inanimate surfaces. Apply use solution using a brush, cloth, mop, sponge, auto-scrubbers, or mechanical spray device. Place pump or trigger spray device in or by immersion so as to thoroughly wet surfaces. Spray the treatment on the surface for 1 minute. Do not wet the brush by hand, brush, cloth or sponge. Change brush, cloth or sponge frequently to avoid recontamination of the treatment. Do not wet the brush by hand, brush, cloth or sponge. Change brush, cloth or sponge frequently to avoid recontamination of the treatment. Do not wet the brush by hand, brush, cloth or sponge. Change brush, cloth or sponge frequently to avoid recontamination of the treatment. Do not wet the brush by hand, brush, cloth or sponge. Change brush, cloth or sponge frequently to avoid recontamination of the treatment.

DISINFECTING PERFORMANCE IN INSTITUTIONS

Hospital, Nursing Homes, and Other Health Care Institutions

- Disinfectant concentrations (CCH) for all 50-gallon solutions of water (400 ppm active) on a variety of hard, non-porous, inanimate surfaces. Apply use solution to thoroughly wet surfaces. Change brush, cloth or sponge frequently to avoid recontamination of the treatment. Do not wet the brush by hand, brush, cloth or sponge. Change brush, cloth or sponge frequently to avoid recontamination of the treatment. Do not wet the brush by hand, brush, cloth or sponge. Change brush, cloth or sponge frequently to avoid recontamination of the treatment. Do not wet the brush by hand, brush, cloth or sponge. Change brush, cloth or sponge frequently to avoid recontamination of the treatment. Do not wet the brush by hand, brush, cloth or sponge. Change brush, cloth or sponge frequently to avoid recontamination of the treatment. Do not wet the brush by hand, brush, cloth or sponge. Change brush, cloth or sponge frequently to avoid recontamination of the treatment.

COMMERCIAL AND INSTITUTIONAL LAUNDRY USE

For residual bactericidal activity against gram-negative and/or gram-positive odor-causing bacteria, residual self-sanitizing activity against Klebsiella pneumoniae and Staphylococcus aureus, use this product as directed.

Initial Treatment: Use 10 ounces of this product in one gallon of water and add solution to the wash water at the beginning of the final rinse cycle. A minimum rinse cycle time of 4 minutes is required.

Repeat Treatment: Follow initial treatment directions and re-treat fabric after each washing or odor persists.

COMMERCIAL AND INSTITUTIONAL LAUNDRY USE

This product provides the fabric with residual bactericidal activity against odor-causing gram-negative and/or gram-positive bacteria when this product is added to the final rinse at a rate of 10 ounces per 100 lbs. of dry laundry. This product was evaluated against Pseudomonas aeruginosa, Klebsiella pneumoniae, and Staphylococcus aureus.

PREVENTION AGAINST MICROTUBES BY SOAPING: Use 10 ounces of this product per 1000 pounds of fabric, dry weight, a minimum soaking time of 5 minutes is required.

COMMERCIAL AND INSTITUTIONAL LAUNDRY USE

For sanitizing step, fill washer to low water level with minimum temperature water at 125°F. Using an appropriate concentration of Quick San 19 into the sanitizing rinse step at the rate of 1 oz of this product per 100 gallons of water to yield 780 ppm active quat (12 ounces per 100 lbs. of dry laundry) or equivalent use dilution. Treat the laundry for a minimum of 5 minutes at a minimum temperature of 95°F. Other laundry additivies, such as fabric softeners, laundry rinse, starch and rinse should be used per manufacturer's instructions. Subsequent rinse cycles after the sanitizing rinse cycle.

This product is used in the final, warm rinse cycle at a low water level. Dilute the appropriate amount of this product (12 ounces per 100 lbs. of dry laundry) to the wash in the final rinse, or dispense directly through automatic dispensing equipment. Run for a minimum of 15 minutes. Repeat as necessary. This product will not harm fabrics. DO NOT USE IN THE PRESENCE OF OR MIX WITH OTHER CHEMICALS.

KILLS HIV-1 ON LAUNDRY IN COMMERCIAL, INDUSTRIAL, AND INSTITUTIONAL APPLICATIONS.

This product provides viural activity against HIV-1 on fabrics that are press washed with a 16-minute contact time followed by normal washing and drying and rinse at a rate of 12 ounces per 100 lbs. of dry laundry in water hardness of 400 ppm.
