CRUISER® 5FS
Insecticide

SUPPLEMENTAL LABEL FOR DIRECTIONS FOR USE ON ALFALFA

Active Ingredient:
Thiamethoxam¹ ........................................ 47.6%
Other Ingredients: ........................................ 52.4%
Total: ........................................ 100.0%

¹CAS No. 153719-23-4

Cruiser 5FS is a flowable seed treatment containing 5 pounds thiamethoxam per gallon.

KEEP OUT OF REACH OF CHILDREN.

CAUTION

EPA Reg. No. 100-941

This label expires July 31, 2014, and must not be used or distributed after that date.

All applicable directions, restrictions and precautions on the EPA registered label are to be followed. Before using Cruiser 5FS as permitted according to this supplemental labeling, read and follow all applicable directions, restrictions, and precautions on the EPA registered label on or attached to the pesticide product container. This Supplemental Labeling contains revised use instructions and or restrictions that may be different from those that appear on the container label. This Supplemental Labeling must be in the possession of the user at the time of pesticide application. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Syngenta
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Alfalfa

Cruiser 5FS seed treatment will protect young alfalfa seedlings from damage caused by aphids and leaf hoppers for the first cut crop only. Apply Cruiser 5FS at 0.001 milligrams thiamethoxam per seed* (each fluid ounce of Cruiser 5FS contains 17.7 grams of thiamethoxam).

*Based on an average of 210,000 alfalfa seeds per pound.

It is highly recommended to use Cruiser 5FS with compatible and registered seed treatment fungicides proven to provide seed and seedlings against diseases. These fungicides must show safety on treated seed, alone or in combination with Cruiser 5FS.

Restrictions:

Do not use a Cruiser 5FS rate that will result in more than 0.022 lb thiamethoxam per acre (10 grams ai/A) per season.

Apply Cruiser 5FS to alfalfa seed in commercial seed treatment facilities only. Do not use in hopper box, slurry box, or other farmer-applied applications.
