DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Read entire label. Use strictly in accordance with precautionary statements and directions, and with applicable state and Federal regulations.

General Information:
CIRKIL RTU is ready to use. Use for chemical treatments, or for treatments to small and confined areas where a need for rapid dry time or concern about water damage prevents use of CIRKIL CX (e.g., attics, picture frames, electronics, furniture, etc.). Spray until moist. Allow to dry completely. For optimal performance, spray in dry conditions and when temperatures are above 60°F (15°C). If desired, you may apply treatments in stages, each 1 hour to 2 hours apart. The second treatment should be applied in 25% to 33% of the surface area treated with the first application. Check treated surfaces before application of the second treatment. After application of the second treatment, allow to dry for 24 hours before returning to the treated area.

For Bed Bug Control:
For bed bugs: CIRKIL RTU is ready to use product. Do not dilute. Shake well prior to use. Use for spot treatments, or for treatments to small and confined areas where a need for rapid dry time or concern about water damage prevents use of CIRKIL CX (e.g., attics, picture frames, electronics, furniture, etc.). Spray until moist. Allow to dry completely. For optimal performance, spray in dry conditions and when temperatures are above 60°F (15°C). If desired, you may apply treatments in stages, each 1 hour to 2 hours apart. The second treatment should be applied in 25% to 33% of the surface area treated with the first application. Check treated surfaces before application of the second treatment. After application of the second treatment, allow to dry for 24 hours before returning to the treated area.
