PRECAUTIONARY STATEMENTS

DANGER TO HUMANS AND DOMESTIC ANIMALS

HAZARDS DUE TO INgestION

This product is corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles or face shield), protective clothing and protective gloves (rubber or chemical resistant) when handling. Harmful if swallowed. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: This product is a corrosive liquid. Use appropriate personal protective equipment (PPE) when handling.

This product is a one-step disinfectant cleaner that is effective against a broad spectrum of bacteria, fungi and viruses. It will prevent the growth of mold and mildew and their odors when used as directed.

This product is fungicidal, and will prevent the growth of mold and mildew and their odors when used as directed.

PHYSICAL OR CHEMICAL HAZARDS:

This product is a corrosive liquid. Use appropriate personal protective equipment (PPE) when handling.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage.

DISINFECTION

NON-MEDICAL USE AREAS - Schools, Commercial Areas and Industries. At 2.5 oz per gallon use level, the activity of this product has been evaluated in the presence of both 5% blood serum, and 400 ppm hard water against Staphylococcus aureus, Salmonella enterica and Escherichia coli.

FUNGICIDAL CONTROL - At 2.5 oz per gallon use level, this product when used on surfaces, in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities. Fungicidal activity has been demonstrated in the presence of both 5% blood serum, and 400 ppm hard water against Trichophyton mentagrophytes (the athlete’s foot fungus). Follow non-medical disinfection directions.

MOLD AND MILDEW CONTROL - At 0.5 oz per gallon use level, this product will effectively inhibit the growth of mold and mildew, and the odors caused by them, when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

SANITIZING NON-FOOD CONTACT SURFACES - (such as floor, walls, tables, etc.) At 1 oz per gallon level prepared in water up to 600 ppm hardness, this product is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumoniae, on hard, porous and non-porous environmental surfaces. Apply use solution with sponge, mop, cloth or mechanical sprayer. Allow to remain wet for 60 seconds. Allow surface to air dry or wipe excess liquid with cloth, mop or sponge.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Open dumping is prohibited. Store in original container in areas inaccessible to children. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. (Plastic and Metal Containers): Triple rinse as follows: Fill container 1/4 full with water and store. Fill container ½ full with water and rinse out. Store. Agitate vigorously, and dispose of rinsate consistent with pesticide disposal instructions. Repeat two more times. Then offer for recycling; if available or puncture and dispose in sanitary landfill or by other procedures approved by state and local authorities. Follow pesticide disposal instructions for rinsate. If not triple rinsed, these containers are acutely hazardous wastes and must be disposed of in accordance with local, state, and federal regulations. (For metal containers only: DO NOT cut or weld metal containers.)
