Non-food contact sanitizing performance when used as a one-step cleaner/disinfectant:

This product can be used on washable hard, non-porous surfaces such as: food preparation and storage areas, countertops, sinks, stairways, equipment, machines or kitchens, medical device surfaces, locker rooms, shower stalls, shower doors, shower and bath areas and exercise facilities. Apergix Age

PREPARATION OF DISINFECTANT/DISINFECTANT SOLUTION:

FOR USE AS A ONE-STEP CLEANER/DISINFECTANT:

Add ¾ ounce of this product to 1 gallon of water (or equivalent use dilution). Apply sanitizer use solution to hard, non-porous non-food contact surfaces. Apply use solution of ½ ounce to 1 gallon of water (or equivalent use dilution) to disinfect hard, non-porous surfaces. Apply use solution using a brush, cloth, or paper towel, or in a mechanical spray device or by immersion so as to thoroughly wet surface and rub. For sprayer applications, spray 6-8 inches from treated surfaces and move the sprayer in a figure eight pattern. Do not spray over any surface that is wetted or sprayed more than once. Do not spray to excess. Rinse as follows: Fill the container ¼ full with water and recap. Shake for 10 seconds. Follow Pesticide Disposal instructions for rinsate container. Non-refillable container. Store only in original container. Do not reuse empty container. Do not reuse empty container. Do not use on ewanei or silage.

NON-FOOD CONTACT SANITIZING PERFORMANCE:

This product is not for medical device surfaces. This product is not for use on Medical device surfaces.

Since the product is non-refillable, follow the directions for use at label concentration. This product is not for use on Medical device surfaces.
