DIRECTIONS FOR USE:

For heavily soiled areas, a pre-cleaning step is required. For one step cleaning and disinfection, use 1 fluid ounce of this product per gallon of water (800 ppm active quat). Apply use solution using a cloth, mop or pressure sprayer so as to thoroughly wet surface to be cleaned/disinfected. For sprayer applications, use a coarse spray device. Allow surfaces to remain wet for 10 minutes and then air dry. Prepare a fresh solution at least daily or when solution becomes visibly dirty or diluted.

CLEANING AND DISINFECTION:

1. Scrape and pre-wash utensils and glasses whenever possible. (1) Scrape and pre-wash utensils and glasses whenever possible. (2) Wash with a good detergent or compatible cleaner. (3) Rinse with potable water. (4) Sanitize in a solution of dimethyl benzyl ammonium chloride (dimbac). (5) Place dimbac in a solution of dimethyl benzyl ammonium chloride (dimbac) and allow to sit for the contact time specified by governing sanitary code. (6) Rinse with potable water rinse is allowed. (7) Sanitization is not permitted under Section HSS 196.13 of the Wisconsin Administrative Code.

INERT INGREDIENTS:

Alkyl (50% C14, 40% C12, 10% C16) Dimethyl benzyl ammonium chloride

KEEP OUT OF REACH OF CHILDREN – PELIGRO

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or giving first aid.

If ON SKIN OR CLOTHING, Take off contaminated clothing. Wash area immediately with plenty of water for 30-60 minutes. Coat a partial control center or doctor for treatment of IN EYES. Do not rub eye. Rinse thoroughly with plenty of water for 15 minutes. Cover a partial control center or doctor for treatment of IN NOSE. Do not touch eye. Rinse thoroughly with plenty of water for 15 minutes. Cover a partial control center or doctor for treatment of IN MOUTH. Do not attempt to induce vomiting. If ON SKIN, Wash with soap and water after cleaning materials and clothing. Call a poison control center or doctor for further treatment advice. NOTE TO PHYSICIAN: Phenol and quaternary ammonium compounds may cause cardiovascular depression. See back panel for additional precautionary statements.
Do not contaminate water, food, or feed by storage and disposal. Do not mix with soap, anionic detergents or oxidizers.

PHYSICAL OR CHEMICAL HAZARDS:
Do not use or store near heat or open flame.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS. Personal Protection:

Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal. Clean and sanitize all surfaces and objects soiled with blood or body fluids. Biological markers should not be used to identify objects soiled with blood or body fluids. If blood or body fluid spills occur, surfaces must remain wet for at least 10 minutes. Then wipe with sponge, mop or cloth or allow to air dry.

HIV-1 TESTING

When possible and feasible, surfaces/objects soiled with blood or body fluids should be tested for HIV-1. Testing is not necessary if decontamination is successful. If positive, surfaces/objects must be treated as contaminated.
