**NOTE TO PHYSICIAN:**

Contains petroleum distillates – vomiting may cause aspiration pneumonia.

**DIRECTIONS FOR USE:**

For a violation of Federal Law to use this product in a manner inconsistent with its labeling is prohibited.

**FOR USE IN:**

Food service and preparation areas, food processing plants, restaurants, clubs, stores, supermarkets, bottling plants, warehouses, buildings, factories, offices, laboratories, lobbies, ships, planes (cargo areas), hotels, motels, hospitals, nursing homes, schools, day-care centers, funeral homes, kennels, farms, barns, stables, dairies, homes, milk and egg handling areas of dairies and chicken houses. This product is engineered for use in automatic metered dispensers. The dispenser automatically activates the special metered valve every 15 and/or 30 and/or 45 minutes. Within 24 hours the area is relatively free of house flies, mosquitoes, gnats, and small flying moths and with continued use reduces annoyance from them. Effectiveness of this product will be noticeable within 30 minutes. The Dispenser is activated twice daily, for 24 hours. In areas of heavy fly activity use for 48 hours: but if less than 24 hour use is required, the Dispenser should be set to treat one hour before kill is desired and run one hour after kill is no longer needed. Factors such as airflow rates, size of space treated, humidity and room temperature affect insect activity and kill. Therefore, one unit per 6000 cubic feet of unobstructed space should be considered as an average with adjustments made depending on specific conditions at site. This product kills and controls insects. Best results are achieved when sanitation and other positive insect prevention practices are followed. Do not use in aircraft cabins. It is suggested that the container be changed once a month.

**OPERATION:**

Remove protective cap from top of can and insert can in dispenser. Suspend dispenser 7 feet from floor and within 15-45 minutes to treat the entire area you want protected. This product can be used to kill mosquitoes, including Culex species which may carry the West Nile Virus. This product can be used to kill House Flies, Mosquitoes, Gnats & Small Flying Moths. Each dispenser will treat up to 650 square feet. Use enough dispensers to treat the entire area you want protected.

**KEEP OUT OF REACH OF CHILDREN:**

See back panel for additional precautionary statements.

**NET WT. 6.9 OZ. (196 GRAMS)**
