Kills & Repels: Mosquitoes, Flies, Fleas, Barn Flies, Deer Flies, Horn Flies, Stable Flies & Gnats
• Provides Rapid Control of Barn Pests
• 0.50% Pyrethrins for Quick Kill

ACTIVE INGREDIENTS
Pyrethrin..........................0.50%
*Piperonyl Butoxide, TECHNICAL........4.00%
OTHER INGREDIENTS................95.50%
Total..............................100.00%

*Equivalent to 3.2% (butylcarbityl) (6-propylpiperonyl) ether and 0.8% related compounds.
Contains Petroleum Distillates

FOR USE IN:

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FLYING INSECTS: Flies, Mosquitoes, Small Flying Moths, Wasps, Gnats – calculate cubic feet of space to be treated. Close all doors and windows. Spray in sweeping motion to all parts of the room. Apply for 2-3 seconds per 1,000 cubic feet of space. Sweep up and destroy fallen insects. Repeat treatment as necessary.

CRAWLING INSECTS: Cockroaches, Ants, Spiders, Silverfish – General Volumetric Treatment: Open cabinets and doors in area to be treated. Shut off air conditioners, fans, and close doors and windows before spraying. Spray for 20 seconds per 1,000 cubic feet of space. Direct spray toward areas suspected of harboring insects. Spray into hiding places such as cracks and crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray whenever possible. Keep area closed for 15 minutes. Open and ventilate before reoccupying. Repeat treatment as necessary.

FOR INDIAN MEAL MOTHS AND ANGUOUSIS GRAIN MOTHS: Close doors and windows. Direct spray into all parts of room especially around stored food product containers, pellets and darkened areas. Spray 7 to 10 seconds for each 1,000 cubic feet of space. Keep area closed for 15 minutes following treatment. Repeat application weekly or as needed.

FOR FLEAS: Spray sleeping quarters, bedding, floor and floor covering where pets are kept. Repeat as necessary. For best results, use with a recommended pet spray on pets.

NOTE: When using this product in an enclosed area, such as milkerms, barn or stable, remove animals before spraying.

DAIRY FARM USE: Milking Parlor and Milkerms: Close all windows and doors. Direct spray upwards, spraying for 2-3 seconds per 1,000 cubic feet of space. Do not remain in treated areas. Ventilate after treatment. Cover milking utensils and milk to prevent contamination from spray or dead and fallen insects. ANIMAL USE: Thoroughly spray entire animal from approximately 2 feet distance. Do not spray directly toward animal’s eyes. Spot treat withers, shoulders, and back where saliva accumulates from head tossing.

BEEF CATTLE OPERATIONS: In barns, close all windows and doors. Spray at the rate of 2-3 seconds per 1,000 cubic feet of space. Do not remain in treated area. After 15 minutes, ventilate the area. Repeat application as necessary. ANIMAL USE: For animal application, thoroughly spray entire animal from approximately 2 feet distance. Do not spray directly toward animal’s face or eyes. Repeat application daily or as necessary.

STANCHION BARN USE: Walk behind animals and direct spray over backs, allowing 5 seconds per animal. For most effective results; apply each morning.

HORSE BARN USE: Close all doors and windows. Spray at the rate of 2-3 seconds per 1,000 cubic feet of space. Do not remain in treated area. After 15 minutes, ventilate the area. Repeat the application as necessary. ANIMAL USE: For animal application, lightly mist from back of horses and ponies at a distance of 2 feet. Do not spray directly toward animal’s face or eyes. Repeat application daily or as necessary.

HOG AND SWINE OPERATIONS: In hog houses, close all doors and windows. Spray at the rate of 2-3 seconds per 1,000 cubic feet of space. Do not remain in treated area. After 15 minutes, ventilate the area. Repeat the application as necessary. SWINE USE: For animal application, direct spray over back of hogs and spray for 5 seconds per hog. Do not spray directly toward the animal’s face or eyes. Repeat application daily or as necessary.

POULTRY OPERATIONS: In poultry houses, close all doors and windows. Spray roosts, walls, nests, and cages thoroughly. Spray at the rate of 2-3 seconds per 1,000 cubic feet of space. Do not remain in treated areas. After 15 minutes, ventilate the area. Treat daily or as necessary.
