Supplemental Label

For enhanced residual preemergence weed control in corn

This supplemental label expires February 15, 2015, and must not be used or distributed after this date.

Active Ingredient:
saflufenacil: N'-[2-chloro-4-fluoro-5-(3-methyl)-2,6-dioxo-4-(trifluoromethyl)-3,6-dihydro-1(2H)-pyrimidinyl]benzoyl]-N-isopropyl-N-methylsulfamide 29.74%
Other Ingredients: ........................................................................................................ 70.26%
Total: ........................................................................................................................ 100.00%
Contains 2.85 pounds active ingredient saflufenacil per gallon formulated as a water-based suspension concentrate

EPA Reg. No. 7969-278

Directions For Use

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- The supplemental labeling and the entire Sharpen® herbicide container label, EPA Reg. No. 7969-278, must be in possession of the user at the time of application.
- Read the label affixed to the container for Sharpen before applying.
- Use of Sharpen according to this labeling is subject to the use precautions and limitations imposed in the label affixed to the container for Sharpen.

Use Information

Sharpen may be applied preplant surface or preemergence to field corn (grown for grain, silage) and popcorn for broadleaf weed control (refer to the product container label for lists of weeds controlled). An adjuvant system (refer to Additives section in the product container label for details) is required for optimum burndown activity.

Before applying Sharpen to popcorn, verify the selectivity of Sharpen on your hybrid with your local seed company (supplier) to help avoid potential injury to sensitive hybrids.

Enhanced Residual

Sharpen can be applied as part of a planned sequential (two-pass) weed control program.

Sharpen use rates applied as the residual component of a planned sequential (two-pass) program (see table following) will provide control or suppression of listed weeds (refer to the product container label for list of weeds controlled) through early to mid-season. For full-season weed control, apply a labeled postemergence treatment such as Status® herbicide + glyphosate as the sequential component.

Residual Preemergence Rates of Sharpen in a Planned Sequential Program1 in Field Corn and Popcorn

<table>
<thead>
<tr>
<th>Soil Texture2</th>
<th>Rate by Soil Texture (fl ozs/A)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Coarse</td>
<td>2.0 to 2.5</td>
</tr>
<tr>
<td>Medium</td>
<td>2.5 to 3.0</td>
</tr>
<tr>
<td>Fine</td>
<td>3.0 to 3.5</td>
</tr>
</tbody>
</table>

1 Application rates in table will eliminate early season broadleaf weed interference until cultivation or a labeled postemergence herbicide is applied.

2 Refer to product container label for definitions of soil texture groups.

Crop-specific Restrictions and Limitations

- DO NOT apply Sharpen® herbicide after corn emergence or severe crop injury will occur.
- Sharpen use may result in delayed corn emergence and stunting under certain environmental conditions including cool temperatures, excessive rainfall/irrigation, and/or persistent wet soil conditions occurring after application.
- Ensure that the corn seed row is closed. Soil conditions that cause poor seed furrow closure and coverage may result in delayed corn emergence or stunting.
- DO NOT apply Sharpen where an at-planting application of an organophosphate (OP) or carbamate insecticide(s) is planned and/or has occurred because severe injury may result.
  EXCEPTION: Sharpen may be applied when Aztec® insecticide or Fortress® insecticide is applied at planting as a band, T-band, or in-furrow. Sharpen may be applied with all other classes of at-planting insecticides including pyrethroids, neonicotinoids, and fipronil.
- DO NOT apply more than a maximum cumulative amount of 6.0 fl ozs/A of Sharpen (0.134 lb ai/A of saflufenacil) per cropping season.
- DO NOT apply more than a maximum cumulative amount of 0.134 lb ai/A of saflufenacil per cropping season in corn from all product sources.
- Corn forage and silage can be harvested, fed, or grazed 80 or more days after application.
- Refer to the product container label for crop rotation intervals.

Tank Mixtures

Sharpen may be tank mixed with or applied sequentially with one or more of, but not limited to, the following herbicide products:

- Clarity® herbicide
- G-Max Lite™ herbicide
- Guardsman Max® herbicide
- Outlook® herbicide
- Prowl® H₂O herbicide
- Status® herbicide
- Verdict™ herbicide
- atrazine
- glyphosate (e.g. Roundup® herbicide)
- Harness® herbicide
- Harness® Xtra herbicide
Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
