**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Keep children or pets off treated area until product has been watered in and lawn is dry.

In New York State, this product may not be applied to lawns within 100 ft. of a coastal marsh, or stream that drains directly into a coastal marsh.

**GENERAL INFORMATION**

For use outdoors, on lawns and as a barrier band treatment around house foundation. Kills ants (including Fire Ants), crickets, earwigs, fleas, roaches (German and American) and other insect pests listed on this label.

To use this product follow these 2 easy steps — (1) Determine the size of the job and measure the area to be treated. (2) Treat as directed in ratio chart. Complete coverage is important. Water in granules immediately following application.

**NOTE:** Make no more than 6 applications per year. Do not apply within 24 hours of rain. Do not allow product to run off from target area. Do not mow for 24 hours following treatment.

---

**PARD TREATMENT**

Around house foundation to control pests normally found around or near foundations of houses, as well as in lawns, and certain of these pests that may enter houses.

### STORAGE & DISPOSAL

**Pesticide Storage:** Store and transport in upright position. Store only in original container in a cool, dry place inaccessible to children or pets.

**Pesticide Disposal:** If partly filled - Call your local waste disposal agency for disposal instructions. Never place unused product down any indoor or outdoor drain. Container Disposal: If empty - Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available.

### PRECAUTIONARY STATEMENTS

**Environmental Hazards**

This product is highly toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticides to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

### WARRANTY

Seller warrants that this product complies with the specifications expressed in this label. To the extent consistent with applicable law, Seller makes no other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

For information on pesticide products (including health, economic, medical emergencies, or pesticide incidents) call National Pesticide Information Center at 1-800-858-7738.

### FIRST AID

**Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7738 for emergency medical treatment information.**

**If swallowed:**

- Call a Poison Control Center or Doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor.
