INSTITUTIONAL FLYING INSECT KILLER II

Kills Wasps, House Flies, Mosquitoes and Gnats

ACTIVE INGREDIENTS:

- 2,6-Dinitrophenyl N-4'-octyl benzylamine...0.013% (cyclopent-2-enyl (1R)-cis,trans-chrysanthemate]
- N-Octyl bicycloheptene dicarboximide.................................................................0.957%
- Piperonyl Butoxide ....................................................................................................0.600%
- Pesticide Storage:
  - Contact as many insects as possible with the spray.
  - WASPS, HORNETS, BEES, PAPERNEST WASPS and MUD DAUBERS: apply liberally to empty chests, closets, bureaus, and other storage areas, directing the spray into cracks, joints, and crevices. Return sanitation measures have been employed, spray all areas prior to use for storage as directed.
  - FOR FARMS, particular attention should be given to cleaning up grain residues from wagons, harvesting equipment and feed troughs, and around used feed and grain bags. Newly harvested grain should be stored in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.
  - ANGUOMOIS GRAIN MOTHS, CHOCOLATE MOTHS, INDIAN MEAL MOTHS, AND MEDITERRANEAN FLOUR MOTHS:
    - FLIES, GNATS, MOSQUITOES, FLYING MOTHS, exposed stages of Indian Meal Moths, Angoumois Grain Moths, Tobacco Moths, Clothes Moths, Chocolate Moths, Almond Moths, Miller Moths, and other listed flying insects:
    - For use as an inspection tool to flush insects from harborage sites:
      - Focus the spray through a small opening in the walls, ceiling, or floor to flush insects out of cracks and crevices. Use with the light on whenever possible to see the insects.
      - After flushing, follow up by spraying the treated area and ventilate room for 20 minutes before re-entry.
      - Do not use in aircraft cabins. When used in dairy barns or facilities: Close processing equipment, and food preparation surfaces, or wash them before use. Do not use in indoor residential areas. When applied as a surface spray: Do not enter or allow others to enter until sprays have dried.
      - Do not use in indoor residential areas. If partly filled: Do not puncture or incinerate! Nonrefillable container. Do not reuse or refill this container. Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.
    - To prevent re-infestation:
      - Sprays applied to storage and processing areas will remove or disperse the vast majority of stored-product pests, but will not prevent re-infestation if proper sanitation practices are not followed, or if insects are allowed to return to the treated areas.
    - To prevent re-infestation:
      - Sprays applied to storage and processing areas will remove or disperse the vast majority of stored-product pests, but will not prevent re-infestation if proper sanitation practices are not followed, or if insects are allowed to return to the treated areas.

FIRST AID:

- In case of contact:
  - Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- In case of eye contact:
  - Immediately flush eyes with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- In case of inhalation:
  - Remove to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a poison control center or doctor for further advice.
- In case of fire:
  - Use dry chemical, carbon dioxide, or foam-type extinguishers. Do not use water. Do not attempt to fight fire unless fully trained and equipped.

ENVIRONMENTAL HAZARDS:

- Avoid contact with water when disposing of equipment washwater rinsate. See Directions for Use for additional precautions and water spraying precautions.
- Avoid applying this product or allowing it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

HYGIENIC HAZARDS:

- Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.
- Wash contaminated clothing immediately after removal. As soon as possible, wash thoroughly and change into clean clothing.
