Closing your pool with the GLB® Pool Closing Kit Treats up to 12,000 gallons will make spring opening a cinch!

1. Add the bag of GLB® Oxy-Brite® shock-oxidizer, 1 lb
2. Add 1 qt of GLB® Algimycin® Winter algaecide
3. Add the entire bottle of GLB® Sequa-Sol® sequestering agent, 1 qt

Follow these 3 easy steps to ensure a clean pool next spring:

1. Before closing your pool, don't forget to prepare your pool from algae, metal and organic buildup over the winter months.
2. Add the bag of GLB® Oxy-Brite® shock-oxidizer, 1 lb, to the pool by brushing the pool walls and floor, vacuuming any debris to 24,000 gallons of water. Be sure to distribute products evenly by adding product while carefully walking around the perimeter of the pool.
3. Drain all water from pipes, pumps, heaters, filters and other pool equipment according to the manufacturer's directions to prevent damage due to freezing.

The GLB® Pool Closing Kit protects your pool from algae, metal and organic buildup over the winter months, keeping your pool in top condition. The GLB® Pool Closing Kit Treats up to 12,000 gallons as follows:

- DOSAGE RATES: SHAKE WELL BEFORE USING
- STORAGE & DISPOSAL: Keep out of reach of children
- HAZARDS TO HUMANS AND PRECAUTIONARY STATEMENTS
