PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF REACH OF CHILDREN
DANGER

Corrosive. Causes irreversible eye damage or skin burns. Harmful if absorbed through skin. Do not get in eyes, on skin or on clothing.

Residential (non-commercial) users are advised to wear chemical resistant gloves, protective eyewear (goggles), safety glasses, or face shield, long-sleeved shirt and long pants, socks and shoes. In addition to these minimum PPE, commercial users must wear a disposable coverall with head and chemical resistant resistant footwear.

While removing existing paint by sanding or blasting, or applying new antifouling paint, commercial users must wear a respirator with an organic vapor cartridge with a filter approved by the National Fire Protection Association or a respirator cartridge with a P100 filter. Residential (non-commercial) users are advised to wear the same respirators, cartridges, and filters as required by commercial users.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing.

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

OTHER: Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Note to Physicians: Contains petroleum distillate—vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS: This material is toxic to fish, aquatic invertebrates, birds, and wildlife. Do not apply directly to water by cleaning of equipment or disposal of waste. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer system without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD: FLAMMABLE. Keep away from heat and open flame.

STORAGE AND DISPOSAL: Do not contaminate water, food or by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¾ full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two or more times.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SURFACE PREPARATION AND COMPATIBILITY: Surface preparation directions must be followed exactly in order to ensure adhesion. Surface must always be clean and dry prior to painting.

GENERAL APPLICATION PROCEDURES: Applying using airless sprayer. Tip Size 20-26 thou inch, pump ratio of 30:1 or greater. For small areas, brush or roller may be used, but, for multiple coats may be required to achieve the required dry film thickness. It is recommended to apply by airless spray one (1) or two (2) full coats of this product.

MIXING AND THINNING INSTRUCTIONS: Mix thoroughly with power mixer prior to application. This coating is designed to be applied without thinning. Should thinning be necessary, consult your International representative prior to starting this coating.

CLEAN UP: For tools, equipment, etc., use INTERNATIONAL 78037.

MINIMUM DRY AND LAUNCHING TIMES: Minimum drying time between coats is 6 hours, and before launching is 8 hours at 78°F.

THEORETICAL COVERAGE: 401 square feet per gallon, per cost at 2.0 mil D.F.T. Consult your international representative for practical application coverage. Practical square foot coverage per gallon per cost is directly proportional to surface, application techniques and climate conditions.

APPLICATION SYSTEMS

EXISTING ANTI-FOULING SYSTEMS—GOOD CONDITION: High pressure fresh water wash with a minimum of 2500 psi and/or scubs to remove all marine growth, zinc, ssils, etc. Spot blast all areas of corrosion to a Near White Metal Standard of SSPC-SP10-85. Blow down with clean and dry high pressure air to remove all spent abrasives. Apply an approved underwater anticorrosive system.

POOR CONDITION: For “polish” results, blast entire area to a Near White Metal Standard SSPC-SP10-85. Apply an approved underwater anticorrosive system.

NEW STRIP CONSTRUCTION: Blast entire area to a Near White Metal Standard SSPC-SP10-85. Blow down with clean and dry high pressure air to remove all spent abrasives. Apply an approved underwater anticorrosive system.

WOOD AND NON-FERROUS SURFACES: Use surface preparation and primers as specified by the Navy.

Disclaimer: The performance of any marine paint or coating depends on many factors outside the control of International Paint LLC including surface preparation, proper application, and environmental conditions.
