Workhorse III
Sapstain and Mold Control Product

US Patent Number 6,375,727 and 7,056,919. Additional Patents Pending

Workhorse® III is a liquid concentrate containing an effective combination of fungicides for the control of sapstain and surface staining fungi that cause discoloration and staining of freshly sawn lumber. Workhorse® III Sapstain and Mold Control Product is an aqueous solution which may be applied to dimensional lumber, logs, plywood and particle board to prevent surface mold growth.

Dilution Ratio: Workhorse® III Sapstain and Mold Control Product is dilutable with water. For lumber in dip systems, use 1 gallon of concentrate per 50 gallons to 200 gallons of water to protect against staining organisms (at 200 ft. dilution, fungal resistance is up to 3 months on softwoods). For spray systems use 1 gallon of concentrate per 5 to 25 gallons of water. Contact Kop-Coat, Inc. for recommendations and further information.

Application Instructions: Flood spray or dip the freshly sawn clean lumber to be treated in Workhorse® III Sapstain and Mold Control Product solution within 24 hours after cutting. A dip of 15 seconds or more is sufficient. If not treated within 24 hours, stain may occur.

Lumber should be totally immersed or sprayed to ensure treatment. Tanks should be covered by a roof to prevent the addition of rain water and consequent dilution of the solution. Valley and spray equipment should be cleaned regularly to remove sawdust and other debris. freshly treated lumber should not be exposed to water. Store in protected area from rain and stack properly for best results.

Clean Up: Use water to clean immersion tanks, spray equipment and surrounding area. Scary water may be required to remove Workhorse® III Sapstain and Mold Control Product from foods and equipment.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
Storage: Store in a closed, properly labeled container in a cool place. If stagnant generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use.
Pesticide Disposal: Pesticide wastes are hazardous. Improper disposal of excess pesticide, spray runoff, mixture, or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
Container Handling: Nonrefillable container. Do not reuse or refill this container. Third container (or equivalent) promptly after emptying. Third container as follows: Empty the remaining contents into application equipment or other mixing container. Add water to container to and mix to keep concentration at least one complete revolution for 30 seconds. Stand the container on its side and turn it back and forth several times. Turn the container over onto its other end and turn it back and forth several times. Empty the mixture into application equipment or a mix tank or store unused for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Causes serious or fatal injury. The textile claims that this product is safe for use around children. If you have any questions or concerns about the use of this product, please contact Kop-Coat, Inc. at 314-772-2200.

WORKER SAFETY GUIDE
This product is toxic to fish and shrimp. Do not apply directly to water. Do not contaminate water when disposing of equipment waste. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS
COMMUTIC - Do not use, poor, spill, or store near heat or open flame.
IN CASE OF FIRE
Use water spray or fog, fog, dry chemical or carbon dioxide to extinguish fire.

LIMIT OF WARRANTY AND LIABILITY
We warrant this material to comply with our published specifications and to be of good merchantable quality and as such will render good quality and service. We warrant such goods to be fit for the normal purposes for which goods are used. We assume no responsibility that the goods concerned in this contract are fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.
