AGRICULTURE USE REQUIREMENTS
Use the product only as directed and in accordance with the WARNINGS and/or with the Worker Protection Standard, 40 CFR part 170. The Worker Protection Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and of the general public exposed to hazardous pesticides in such areas. It is very important that agricultural workers and others exposed to this product be protected. See the WARNINGS and/or with the Worker Protection Standard.

PERSONAL PROTECTIVE EQUIPMENT
Application Equipment: Long-sleeved shirt and long pants, waterproof gloves and shoes plus socks. Follow manufacturer’s directions for cleaning and reconditioning PPE. If no such instructions for washing, use detergent and hot water. Keep PPE free from other chemicals.

ENVIRONMENTAL RECOMMENDATIONS
For terrestrial soils, do not apply directly to water, to areas where water may enter a stream, to bodies of water, or to areas where water may run off into bodies of water. Do not contaminate water when disposing of equipment washwater.

DIRECTIONS FOR USE
It is a violation of Federal law to apply this product in a way not consistent with its labeling.

First, APPLY this product in a way that will contact workers or other persons directly or through drift. Only registered handlers may be directly exposed to this product.

WARRANTY STATEMENT
Our recommendations are only the best known uses of this product. Our recommendations may change in accordance with new uses, new information, or new technology.

KEEP OUT OF REACH OF CHILDREN CAUTION: USE CAUTION TO AVOID INJURY FROM SLIPPING OR FALLING

See additional precautionary statements on the label part.
