6 MONTH ALGAECIDE
7.5k TO 20k GAL.

PoolRx™
Mineral Unit

ELIMINATES ALL ALGAE
REDUCES CHEMICALS

Active Ingredient:
Copper Sulphate Pentahydrate (chelated) ...........52.8%
Other Ingredients ................................... 47.2%
Total .............................................. 100.0%

CAS #7758-99-8
Copper as metallic not less than 25%.

Keep out of reach of children
DANGER
FIRST AID

IF SWALLOWED: Call a poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or Doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate use of gastric lavage. Have product container or label with you when calling a Poison Control Center or doctor for treatment advice.

See back panel for additional precautionary statements.

Unit part #: 101001
Net weight: 0.72 lbs.
Net Weight (257 Grams)

Certified to

WATER. ENERGY. SOLUTIONS.
SIMPILIFIES POOL CARE

POOLRX MINERAL UNIT
PoolRx contains a proprietary blend of minerals that continuously and effectively eliminates algae. The specially treated alloy cylinder is packed with the PoolRx mineral formulation. These minerals immediately dissolve out of the cylinder and form a stable residual in the pool water. The minerals eliminate the algae while freeing up low levels of chlorine to be more active and productive in the water. During the pool filtration process the minerals are rejuvenated every time they return and pass through the cylinder. PoolRx works synergistically with a constant low level of chlorine. Residential (0.5-1.0 ppm); Commercial (1.0-5.0 ppm)

IDEAL FOR SALT POOLS
PoolRx Minerals improve the salt water experience. The minerals reduce the salt chlorine production needed to keep your salt pool sanitized and algae free. Less salt chlorine production extends the life of the salt cell and reduces the amount of acid needed to balance the pH. PoolRx prolongs the life of your equipment, saves you money and improves the quality of your water.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- Start with a clean filter.
- Simply drop the unit into the pump basket or skimmer basket.
- Maintain normal pool chemistry ranges;
  Residential  Chlorine  0.5ppm - 1.0ppm
  Commercial  Chlorine  1.0ppm - 5.0ppm
  pH  7.2 - 7.8
  Alkalinity  80 - 120
  Cyanuric Acid  10 - 80

Commercial units available for 90,000 gallons and up

MAINTENANCE
- Do not re-clean or backwash your filter after installation for 2 weeks unless necessary. This allows time for minerals to pass through filter into solution.
- Unit must be replaced at the beginning of every swimming season for effective results.
- PoolRx Mineral Booster (#102001) should be added after approximately 4 to 6 months, based on bather load and conditions. Minerals are lost through algae kill, backwashing and filter cleaning.
- For detailed instructions go to www.poolrx.com.

NOTE: The hazards and information contained in this warning are for the product, as delivered. The product is intended to be diluted into large amounts of water, where the dissolved solution will not pose the same hazards or concerns.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals.
Keep Out Of Reach Of Children.

DANGER: Corrosive, Causes irreversible eye damage. Harmful if swallowed. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the restroom. Remove and decontaminate clothing before reuse.

STORAGE & DISPOSAL: Keep product dry in tightly closed container when not in use and below 120°F - 50°C

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish.
