How to apply:
1. Remove one tube from the package. Separate one tube from the others. Hold the tube with notched end pointing up and away from the face and body. Use scissors to cut off the narrow end at the notches along the line.
2. Invert tube over dog and use open end to part dog’s hair. Squeeze tube firmly to apply all of the solution to the neck and prevent the liquid from running off the neck to the back of the neck to a point midway between the neck and tail.
3. Do not remove tube from the pack until ready to use. Store in a cool (below 80°F) place out of the reach of children and pets.

How to open:
1. Hold the tube with notched end pointing up and away from the face and body. Use scissors to cut off the narrow end at the notches along the line.
2. Invert tube over dog and use open end to part dog’s hair. Squeeze tube firmly to apply all of the solution to the neck and prevent the liquid from running off the neck to the back of the neck to a point midway between the neck and tail.
3. Do not remove tube from the pack until ready to use. Store in a cool (below 80°F) place out of the reach of children and pets.

For year-round protection, apply monthly.

- Step 1
- Step 2
- Step 3

5. Weigh your pet.
6. If partly filled:

STORAGE AND DISPOSAL
- Keep out of reach of children.
- Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes or mouth.
- Use spectasure tubes for dogs monthly for complete control of flea, tick and chewing lice infestations.
- Consult a veterinarian before using on dogs with known organ dysfunction. Dogs may experience some temporary irritation before using this product on debilitated, aged, or medicated dogs. Can be used on breeding, pregnant, or lactating dogs.
- Do not use on puppies under 8 weeks of age.
- Use entire contents of tube on each dog. Do not use multiple tubes on one dog. Do not use dog products on cats.
- Do not remove tube from the pack until ready to use. Store in a cool (below 80°F) place out of the reach of children and pets.
- Do not re-use the same product tube at a time.
- Separate animals after treatment to avoid chance of ingestion.
- Do not split tubes between pets.

The active ingredient in Spectra Sure® for dogs features a sustained release formula developed for fast acting and long lasting control of fleas, ticks, and chewing lice for up to 1 month on dogs.

Controls two common pests that may cause sarcoptic mange: fleas and ticks.

Spectra Sure® uses a four-way residual formulation that prevents the attachment and development of listed pests. Spectra Sure® for dogs is not recommended or distributed by "Vetri-Science" Ltd (the "Company") and is distributed by "Vetri-Science" Ltd.

Kills tick paralysis as well as the larvae, nymphs, and adults of these pests. Spectra Sure® for dogs is not a treatment for all stages of deer ticks.

Kills adult, deer, and brown dog ticks, American dog ticks, lone star ticks, and all stages of deer ticks.

Kills brown dog ticks, which may be a source of flea allergies, dermatitis and flea bite anemias.

Kills adult, filaric, and sarcoptic mange. Spectra Sure® for dogs is used as a preventive measure for protection against sarcoptic mange in dogs.
