Fungitrol™ 940 fungicide

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING
Cause substantial but temporary eye injury. Harmful if inhaled or swallowed. Do not get on eyes, on skin, or on clothing. Harmful if absorbed through skin. Wash thoroughly with water after handling. Avoid breathing dust, eating, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause irritation in some individuals. Avoid breathing spray mist.

Personal Protective Equipment (PPE)

Applicator or other handlers must wear:

- long-sleeved and long pants
- goggles, face shield or safety glasses
- certified grain dust mask

User Safety Requirements

Users must wash hands before eating, drinking, chewing gum, or using tobacco. Do not eat or drink anything contaminated with product. Users must remove contaminated clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users must remove personal protective equipment immediately after contact with product.

Environmental Hazards

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, ditches, canals, brooks, or other waters in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit. In the absence of a permitting authority has been notified in writing prior to discharge. This product is toxic to bees. Do not contaminate water, food, or feed by storage or disposal. Do not dispose of product in ditches, brooks, or ponds. Do not store this product in sewage systems without previously notifying the local sewage treatment plant manager. For guidance on how to contact your State Water Quality or Regional Office of the EPA.

NOTE: READ THE MATERIAL SAFETY DATA SHEET BEFORE USING THIS PRODUCT.

IN CASE OF TRANSPORTATION EMERGENCY

CALL CHEMTREC 800-424-9390 (703-627-8287)

ACTIVE INGREDIENTS:
3-iodo-2-propynyl butylcarbamate... 40.00%
Insert INGREDIENTS: 50.00%
TOTAL: 100.00%

Pesticide Storage

KEEP OUT OF REACH OF CHILDREN

WARNING

FIRST AID

If IN RYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for further treatment advice.

If SWALLOWED: Call a poison control center or doctor immediately for further treatment advice. Do not attempt to induce vomiting. Do not give anything by mouth to an unconscious person.

CONTAINER HANDLING:

- For containers less than or equal to 50 lbs.
- Non-refillable container. Do not reuse or refill this container. To reuse or refill this container, first empty: Simply the remaining contents into application equipment or a tank mixer. Fill the container full with water. Recycle as follows: Simply the remaining contents into application equipment or a tank mixer. Fill the container full with water. Replace the tip of the container with a cap. Next, screw the cap on tightly. Then, continue rinsing eye. Call a poison control center or doctor immediately for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Storage and Disposal

Do Not Contaminate Water, Food or Feed by Storage or Disposal

For links: This product will impart protection of aqueous based ink solutions against fungi at use levels ranging from 0.06-0.5%. Add at the end of the production cycle with good agitation to ensure uniform distribution.

For pigment dispersions, slurries, gypsum slurries for wallboard, putty, powder and gypsum board. Add at the use product at use levels ranging from 0.01-0.2%. Add at the end of the production cycle with good agitation to ensure uniform distribution.

For household, consumer, industrial, institutional, and janitorial products (such as liquid and solid air fresheners, dish detergents, laundry products, soaps and detergents, non-food contact surface cleaners, floor care products, bathroom cleaners, window cleaners, fabric care products, automotive care products). Add the product at use levels ranging from 0.01-0.2% with good agitation to ensure uniform distribution.

For INK: Use in an aqueous ink system only. Typical use levels range from 0.5-5%. Dilute the product in an aqueous ink system to make a good dispersion in the ink vehicle rather than to apply to new lumber, particle board, millwork, etc. The amount of product use will depend on the severity of the conditions for end use and the extent of time that protection is required.

For agricultural use: Add at the end of the cycle with good agitation to prevent possible mold growth and assure uniform distribution.

For fungicides: For the control of surface mold growth on plastic or plastic coated items such as shower curtains, cable and wire covers, automotive wheel covers, furniture, wall paper, plastics, paper, plastic, and vinyl compositions of carpet. For example, extruded backing, sheets or any other plastic or plastic coated materials. Add product in the range of 0.5-2.5% by weight of the plastic or plastic coating. Add product in to the plastic or plastic coating formulation after incorporation has been made. The amount of product use will depend on the severity of the conditions for end use and the extent of time that protection is required.

For wood preservation: This product is to be used in wood preservation only. Typical use levels range from 0.5-5%. Dilute the product in an aqueous solution to make a good dispersion in the wood vehicle rather than apply to new lumber, particle board, millwork, etc. The amount of product use will depend on the severity of the conditions for end use and the extent of time that protection is required.

For agricultural use: Add at the end of the cycle with good agitation to prevent possible mold growth and assure uniform distribution.
