Neutra-Dis®

One-Step Disinfectant Cleaner

Disinfectant, Cleaner, Mildewstat, Fungicide, Sanitizer, Wurzule® and Deodorizer for Hospitals, Schools, Institutional and Industrial Sites.

- Neutra-Dis is a one-step disinfectant cleaner that disinfects, cleans, and deodorizes in one labor-saving step.
- Non-dulling formula eliminates the time and labor normally required for rinsing.
- Neutra-Dis can be applied through powder, liquid, pumps, and fogging/wetting systems. Follow manufacturer’s instructions when using this equipment.
- Neutra-Dis neutralizes musty odors and tough odors from smoke, pet odors, and spills, and is effective in hard water up to 400 ppm hardness in the presence of 5% salt.

ACTIVE INGREDIENTS:
Diallyldimethyl Ammonium Chloride 5.0% ± 0.5%
Alkyldimethyl (5-C 14 ) 30% 5-C 14 (7-C 14 ) 16%
Diallylguanidine Chloride 3.58%
OTHER INGREDIENTS:
91.522%

KEEP OUT OF REACH OF CHILDREN

DANGER PELGRO

See side panel for additional precautionary statements.

FIRST AID

In case of emergency, call Poison Control Center for medical advice. Have the product container or label with you when calling a poison control center or doctor. In case of poisoning, if given orally, have the person drink 1 or 2 glasses of water. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Call a doctor immediately for medical advice. In case of contact with eyes, wash them with water for 15 minutes, preferably with soap. If irritation persists, consult a doctor immediately for medical advice. In case of contact with skin, wash with soap and water for 15 minutes, preferably with soap. If irritation persists, consult a doctor immediately for medical advice.

GALIONS

EPA REGISTERED:
Neutra-Dis is a one-step disinfectant that is effective on a broad spectrum of bacteria to disinfect, and inhibits the growth of certain fungi, mold, and mildew. It is a flexible disinfectant that can be used on various surfaces, including food contact surfaces, and it is recommended for use in food service establishments, hospitals, schools, and industrial sites.

FUNCTIONS OF THE PRODUCT:
- Disinfectant: Neutra-Dis is effective against a wide range of bacteria, including Staphylococcus aureus, Escherichia coli, Pseudomonas aeruginosa, and Salmonella typhi.
- Cleaner: The product removes soil, dirt, and grease from surfaces, leaving them clean and free of residue.
- Deodorizer: Neutra-Dis neutralizes unpleasant odors, making it ideal for institutions with heavy foot traffic.
- No-Rinse: The product can be used without a final rinse, saving time and labor.

APPLICATIONS:
- Food Contact Surfaces: Neutra-Dis can be used on food contact surfaces to ensure bacteria-free environments.
- Non-Food Contact Surfaces: It can be used on non-food contact surfaces to maintain hygiene and prevent the spread of bacteria.
- Instruments: Neutra-Dis is effective in disinfecting medical instruments, ensuring patient safety.
- Equipment: The product can be used on equipment to prevent the growth of bacteria and mold.
- Surfaces: Neutra-Dis is effective in disinfecting various surfaces, including floors, walls, and ceilings.

INSTRUCTIONS FOR USE:
Before using Neutra-Dis, ensure the area is clean and dry. Apply the product directly to the surface to be treated. Allow the product to remain on the surface for the recommended contact time. Neutra-Dis is effective in killing bacteria on surfaces, such as stainless steel, porcelain, and glass, for 10 minutes. After the contact time, follow the manufacturer’s instructions for rinsing or drying. Neutra-Dis is effective in killing bacteria on hard, non-porous surfaces, such as stainless steel, porcelain, and glass, for 10 minutes. After the contact time, follow the manufacturer’s instructions for rinsing or drying.

STORAGE AND DISPOSAL:
- Storage: Neutra-Dis should be stored in a cool, dry place, away from direct sunlight. Keep the product out of reach of children.
- Disposal: Do not dispose of Neutra-Dis in the environment. Follow local regulations for proper disposal of chemicals.

EPA REGISTERED:
Neutra-Dis is EPA registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). It is registered for use on a wide variety of surfaces, including food contact surfaces, non-food contact surfaces, and medical instruments. Neutra-Dis is also registered for use in hospitals, schools, and industrial sites.
