DIRECTIONS FOR USE

This product applies 1.5 pounds of 14-0-0 per acre per application.

APPLICATION

- Apply on a calm day.
- Never apply the grass is wet from dew or sprinkling before applying. This helps particles adhere to weed leaves to prevent bird eats.鸟。
- Set your spreader to the setting chart shown above. Check the chart before applying.
- Kills weeds including dandelion, white clover, blackberry, and patches other than grass.
- Kills annuals and perennial grasses, green cover, or designations. Do not apply within 25 feet of food, fish ponds, streams, wells, manure, watercourses, lakes, ponds, or streams. Do not apply where weeds will not be killed. Apply this product directly to your lawn, and sweep any product landing on the driveway, sidewalks, gutters, or street, back onto the treated area. To prevent product run-off, do not over water the treated area to the point of runoff or apply when rain is expected that day.

USE RESTRICTIONS

- Do not allow children or pets directly through drift. Keep people and pets off lawn during application. Do not allow pets or people to enter treated areas until dusts have settled.
- Do not apply more than twice per year.
- A minimum of 30 days between applications is required.
- Do not apply directly to or near water, storm drains, gutters, pipes, or drainage ditches. Do not apply within 25 feet of food, fish ponds, streams, wells, manure, watercourses, lakes, ponds, or streams. Do not apply where weeds will not be killed. Apply this product directly to your lawn, and sweep any product landing on the driveway, sidewalks, gutters, or street, back onto the treated area. To prevent product run-off, do not over water the treated area to the point of runoff or apply when rain is expected that day.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in a dry place. Do not allow the product to come into contact with soil, water, or any other material. Store in original container and in a secure place out of the reach of children and pets.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Do not clean or refill this container. If Empty, place in trash or offer for reclamation if available.

Pesticide registration statement

 técnicas de tratamiento. Aunque sea necesaria la presencia de agua para la eficacia del producto, debe protegerse de la exposición al sol y anterior a su uso. No deben aplicarse condiciones adversas como la lluvia, vientos fuertes o temperaturas extremas. No deben aplicarse productos que contengan sulfato de amonio.

DIRECTIONS FOR USE

This product applies 1.5 pounds of 2,4-D per acre per application.

APPLICATION
• Apply on a calm day.
• Make sure that the grass is not wet from dew or sprinkling before applying. (This helps particles adhere to weed leaves to produce best results.)
• Set spreader to the setting indicated by the chart above before applying.
• Kills weeds including dandelion, white clover, chickweed, plantain and ragweed.
• Apply when daytime temperatures are between 60 and 90 degrees F.
• Apply only to grass. Do not allow granules or dust to drift onto flowers, shrubs, fruit or vegetables.
• Grass should not touch the bottom of a drop spreader. Tall grass should be mowed a day or two before application.
• Delay application on newly seeded, sodded or sprigged areas until new grass has been mowed four times.
• Wait at least one month after using this product before you seed, sod or plant grass plugs.
• Not for use on St. Augustine grass, Floratam, dichondra, liriope, carpetgrass or bent grass lawns.
• On bahia or centipedegrass lawns, wait until after the second mowing of the year, but not before mid-March.
• In fall, DO NOT treat centipedegrass after Oct. 1, or bahia grass after Nov. 1.
• Wait at least 24 hours after application before you water or mow the lawn (Granules must remain on weed leaves for 24 hours to be effective).

KEEP OUT OF REACH OF CHILDREN
CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
CAUTION: Harmful if absorbed through skin. Harmful if inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing dust. Wear long-sleeved shirt, long pants, shoes and socks and chemical resistant gloves made of any material.

FIRST AID

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling poison control center or doctor or going for treatment.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticides off the treatment area. Sweeping any product that lands on a roadway, sidewalk, or street, back onto the treated area of the lawn will help to prevent run off to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

Scotts Step 2 Weed Control plus Lawn Food

Well-fed lawns are more efficient at using available water.

Feeding with Scotts lawn food helps grow a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat, drought and other stresses.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in a dry place. Recal closed bag by folding top down and securing. Store in original container in a secure area away from children and pets.
PESTICIDE DISPOSAL and CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Scotts No-Quibble Guarantee®
If for any reason you, the consumer, are not satisfied after using this product, you are entitled to your money back. Simply send us evidence of purchase and we will mail you a refund check promptly.
