DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**DISINFECTION PERFORMANCE IN NON-MEDICAL FACILITIES**:
Add 2 cups of this product per 1 gallon of water (660 ppm active). This product was evaluated in the presence of 400 ppm hard water and 5% serum with a 15-minute contact time and found to be effective against the following viruses on hard, non-porous surfaces: Avian Influenza A H5N1 virus, Avian Influenza A H9N2 virus, Asian Influenza A H1N1 virus, Influenza A H1N1 viruses and Respiratory syncytial virus (RSV). The product was also effective against the following viruses on hard, non-porous surfaces: Adenovirus Type 1, Herpes Simplex Virus Type 2, Human Coronavirus, Influenza A Virus, Influenza A H1N1 virus and Respiratory syncytial virus (RSV).

**FUNGICIDAL PERFORMANCE**: When used as directed at 5 fluid ounces per gallon of water (330 ppm active), the product was effective against the following fungi on hard, non-porous surfaces: Alternaria alternata, Aspergillus flavus, Aspergillus niger, Candida albicans and Trichophyton mentagrophytes - Athlete’s Foot Fungal disease of Plantar:

PREPARATION OF DISINFECTION/FUNGICIDAL/VIRUCIDAL USE SOLUTION:
For nearly all areas, a preliminary cleaning is required. Add 2 cups of this product to 1 gallon of water to dilute hard, non-porous surfaces. Apply the solution using a brush, cloth, mop, sponge, or sprayer, as necessary. Properly apply the solution to the area to be treated. Use the product at the concentration of 400 ppm per gallon of water. Allow a 5-minute contact time. For very light or temporary soiling, a 2-minute contact time is recommended. Use of the product for cleaning of surfaces should be preceded by a thorough cleaning procedure using a suitable detergent and a vigorous mechanical cleaning method. In a household setting, a 1-minute contact time is recommended. In a household setting, a 1-minute contact time is recommended. In a household setting, a 1-minute contact time is recommended.

**FOR DISINFECTING HARD, NON-POROUS SURFACES AGAINST AVIAN INFLUENZA A VIRUS**: Use in non-animal use sites, take the preparation of disinfection/fungicidal/virucidal use solution directions. MOLD AND MILDEW CONTROL: To control the growth of mold and mildew on their food. Non-porous surfaces in contact with water. Apply by brush, by brush, mop, sponge, or sprayer. Use a mechanical or a manual sprayer. Apply to the area to be treated. Use the product at the concentration of 400 ppm per gallon of water. Allow a 2-minute contact time. For very light or temporary soiling, a 2-minute contact time is recommended. In a household setting, a 1-minute contact time is recommended.

**FOR ODORS CAUSED BY DOGS, CATS AND OTHER DOMESTIC ANIMALS**: Use on rugs, floors, walls, kitchen, cafes, crates, litter boxes, mat, floor coverings, and any surface that can be wetted. Use a non-porous surface first. Scrub surface area. Then follow directions for a General Disinfection. GENERAL DEODORIZATION: To deodorize, add 1/2 oz of this product to 1 gallon of water. Allow to air dry.

KEEPS INDOORS AND OUTDOORS CLEAN:

Keep out of reach of children. Danger to pets.

See right panel for additional precautionary statements and first aid instructions.

EPA Reg. No. 10324-141-4084
EPA Est. No. 61524-00-A1

ACTIVE INGREDIENTS:
Didecyldimethyl Ammonium Chloride 10.14% Methylhydroxybenzenesulfonic Acid 6.76%

TOTAL 100%

DATE REVIEWED: MARCH 24, 2021
