For All Seasons II
Lawn Food Plus Crabgrass and Weed Preventer

Containing Prodimine
- For Selective Preemergence Control of Grass & Broadleaf Weeds in Established Lawns
- Helps Create a Healthier Lawn & Stronger Root System; Delivers Quick Results

ACTIVE INGREDIENTS:
Prodimine (40.7% N.O. a-p.p; 4-(3,4-dichloro-6)-(3H)isocarboxazidyl) methyl ether).......................... 53.5%
OTHER INGREDIENTS................................................................. 46.5%
TOTAL.................................................. 100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION
See the following section: Precautionary Statements, Regarding To Humans and Domestic Animals, for additional information.

Net Weight 20 LBS. (0.88 KG)

Covers Up To 5,000 Sq. Ft.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear long-sleeved shirt and long pants, shoes and gloves.

FIRST AID
If In Eyes:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after 5 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

If Swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sit a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a Poison Control Center or doctor.
• Do not give anything by mouth to an unconscious person.

If On Skin Or Clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

If Inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.
• Call a poison control center, or doctor, or when giving for treatment advice.

Have this product container or label with you when calling a poison control center or doctor or when going for treatment in the event of a medical or chemical emergency contact.

ENVIRONMENTAL HAZARDS
This product has low solubility in water. At the limits of solubility, this product is not toxic to fish. However, at concentrations above the level of water solubility, it may be toxic to fish. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent sites. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back into the treated area of the lawn or garden will help prevent runoff to water bodies or drainage systems.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is a selective preemergence herbicide that provides residual control of many grassy and broadleaf weeds in established turf grasses (excluding golf course putting greens) and lawns.

This product controls susceptible weeds by inhibiting weed seed germination and root development. Most effective weed control will be obtained when it is activated by at least 0.5 inches of rainfall, irrigation, or with shallow (≤2 inches) incorporation, prior to weed seed germination and within 14 days following application.

Not for use on plants being grown (1) for sale or other commercial use, (2) for commercial seed production, or (3) for research purposes. For use on plants intended for aesthetic purposes or climate modification and being grown in ornamental gardens or parks, or on golf courses or lawns and greens. Do not graze or feed livestock forage cut from areas treated with this product.

Do not apply this product through any type of irrigation system. Do not apply any fertilizer. Do not apply to golf course putting greens.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR WEED CONTROL, CROP INJURY, OR ILLEGAL USES.

WEEDS CONTROLLED
When used in accordance with this label this product will provide control of the following weeds:
- Barnyardgrass
- Bluegrass, Annual (Poa annua)
- Carpetweed
- Chickweed, common
- Clover, white (from seed)
- Crabgrass (large, smooth)
- Crowfootgrass
- Cupgrass, Woolly
- Foxtail, Annual
- Goosgrass
- Horseweed
- Japanese Bunchgrass
- Kochia
- Lambquarters, common
- Lovegrass
- Panicum (Texas, Fall, Browntop)
- Pigweed
- Purslane, common
- Pursley, Florida
- Quackgrass
- Shepherd's purse
- Signalgrass, Broadleaf
- Speedwell, Persian
- Spurred Cattail

MAXIMUM ANNUAL RATES
This product is recommended for use on the turf grass species listed in the following table. Do not exceed the maximum yearly rain as given in the following table.

MAXIMUM APPLICATION RATE/CALENDAR YEAR OF
For All Seasons II Lawn Food Plus Crabgrass and Weed Preventer BY TURF GRASS SPECIES
Turf Species: Lbs. Products/1000 sq. ft. Lbs. a.i./A
Creeping Bentgrass 4.0 0.65
Creeping Red Fescue 4.7 0.75
Buffalograss 5.2 1.0
Kentucky Bluegrass 6.2 1.5
Perennial Ryegrass 9.3
Bermudagrass 1.5
Bahiagrass
Cenpedegrass
Seashore Paspalum
St. Augustinegrass
Tall Fescue (Including turf-type)
Zoysia

These are the maximum rates per calendar year by species limitations.

WHEN TO APPLY AFTER OVERSEEDING TURF
Do not apply to overseeded turf within 60 days after seeding or until after the second mowing, whichever is longer. Injury to desirable seedlings is likely if this product is applied before sending secondary roots are in the second inch of soil, not more than 8 months after planting.

WHEN TO OVERSEED AFTER APPLICATION
This product will inhibit the germination of turf species if overseeded too soon after application. Follow rates and intervals in the following table below for best overseeding/seedling results.

MAXIMUM APPLICATION RATE/CALENDAR YEAR OF
For All Seasons II Lawn Food Plus Crabgrass and Weed Preventer BY TURF GRASS SPECIES
Lbs. a.i./A
North Months Before Overseeding
3.1 0.90 4 4 4
4.0 0.66 5 4 4
4.7 0.80 6 5 5
5.0 0.80 6 6 6
6.2 1.00 7 7 7
7.1 1.14 9 9 9
8.1 1.30 10 10 10
9.3 1.50 12 12 12

SPREADER SETTINGS
Spreader settings vary by make and model of spreader. It is recommended that individual spreaders are calibrated for the specific product that is to be applied. A walking speed for 3 miles per hour is recommended.
Shepherd's purse
Goosegrass
Hibiscus
Juncus
Knotweed

As many acres a single application of 0.65 lb to 1.5 lb. active ingredient per acre (equal to 176 lbs. to 405 lbs./A of this product or equal to 0.4 to 0.9 lbs./1000 sq. ft. of this product) will control goosegrass. However, under heavy goosegrass pressure and/or an extended growing season, most effective weed control may be obtained by making an initial application of 0.65 lb. to 1.0 lb. a.i./ac. (equal to 176 lbs. to 270 lbs./A of this product or equal to 0.4 to 0.6 lbs./1000 sq. ft. of this product) followed by 40 to 50 days after wet or before irrigation or by slow growth. Do not exceed the maximum rate for turf grass species listed in the Maximum Annual Rate Table below. Do not exceed the maximum rate for turf grass species listed in the Maximum Annual Rate Table below.

Application for this weed should be made in late summer, fall, or winter prior to germination.

Application: Sequential application may be made so long as the total amount of product applied does not exceed the maximum annual application rates recommended for each turf species. All applications must be made prior to germination of the weed species.

**APPLICATION DIRECTIONS**

Apply uniformly with suitable, calibrated application equipment.

**ESTABLISHED TURF**: This product is a selective pre-emergence herbicide that, when properly applied, will control certain grass and broadleaf weeds in established turf grasses and lawns. The maximum amount of this product that may be applied per year is given for each turf grass species in the Maximum Annual Rates section of this label. Most effective weed control in turf grasses is the establishment of the Maximum Annual Rates section of this label. Most effective weed control in turf grasses will be obtained when this product is activated by at least 0.5 inches of rainfall or irrigation prior to weed seed germination and within 14 days following application. See the map below for approximate crabgrass seed germination dates.

**USE PRECAUTIONS**: The following precautions apply to the use of this product in turf grasses and lawns: (1) Application of this product may cause reduced forage and forage yield of the treated area. Do not apply directly to forage or until after the second mowing, whichever is longer. Injury to desirable species is likely if this product is applied before seeding or until after the second mowing, whichever is longer. Injury to desirable species is likely if this product is applied before seeding. (2) Do not apply to turf grasses that are actively growing and that are sensitive to herbicides. (3) Do not apply to turf grasses that are actively growing and that are sensitive to herbicides. (4) Application of this product to turf grasses that are actively growing and that are sensitive to herbicides. (5) Disturbing the herbicide barrier with cultural practices such as disking may result in reduced weed control. (6) Do not apply this product where dichondra, clover, bent grass, velvet bentgrass or annual bluegrass (Poa annua) are desirable species.

**RATES OF APPLICATION**

This product may be applied as a single application or sequential applications to control weeds germinating throughout the year. All applications must be made prior to germination of the target weeds. This product will not control established weeds. Maximum use site selection should be based on turf species. The length of time residual weed control provided by this product is related to the rate applied.

Derived from: Ammonium Sulfate, Urea, Monopotassium Phosphate, Sodium Borate, Copper Sulfate, Iron Sulfate, Manganese Sulfate, and Zinc Sulfate.

**STORAGE AND DISPOSAL**

STORAGE: Keep this product in its original container in a dry, cool, secure area. Do not contaminate water, foodstuff, feed, or soil storage or disposal.

PRODUCT DISPOSAL: As a responsible environmental practice, where possible, it is recommended that all of the contents of the bag be used, carefully following label directions and precautions.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling. It is allowed by state and local authorities, by burning. If burned out of smoke.

**CONDITIONS OF SALE AND WARRANTY**

The directions for use of this product reflect the opinion of the experts based on field use tests. The directions are believed to be reliable and should be followed carefully. However, it is possible to expect some reduction in their effectiveness as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of Voluntary Purchasing Groups or the Seller. At such risks shall be assumed by the buyer.

Voluntary Purchasing Groups warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the inherent risks referred to above. Voluntary Purchasing Groups makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty, in no case shall Voluntary Purchasing Groups or the Seller be liable for consequential, special, or indirect damages resulting from the use of handling of this product. Voluntary Purchasing Groups and the Seller offer this product, and the Buyer and user accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of Voluntary Purchasing Groups.

[Voluntary Purchasing Group]
seeking secondary roots are in the second inch or so, not more than 1 inch. Do not cut (harvest) treated grasses 1 day before, 1 day after application. Do not apply to newly established turf or where growth is expected to occur within 1 day after application. Application of this product to turf stressed by drought, low fertility, or pest damage may result in turf injury. (5) Distribute the herbicide barrier with cultural practices such as diking may result in reduced weed control. (6) Do not apply this product where dichondra, colonial bentgrass, velvet bentgrass or annual bluegrass (Poa annua) are desirable species.

**RATES OF APPLICATION**

This product may be applied as a single application or in sequential applications to control weeds germinating throughout the year. All applications must be made prior to germination of the target weeds. This product will not control established weeds. Maximum use rate selection should be based on turf species. The length of time residual weed control provided by this product is related to the rate applied.

The instructions for use of this product reflect the opinion of the experts based on field use and tests. The instructions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of factors such as weather conditions, presence of other materials, or the manner of use or application of which are beyond the control of Voluntary Purchasing Groups or the Seller. All such risks shall be assumed by the buyer.

Voluntary Purchasing Groups warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use. Subject to the inherent risks referred to above, Voluntary Purchasing Groups makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall Voluntary Purchasing Groups or the Seller be liable for consequential, special, or indirect damages resulting from the use of handling of this product. Voluntary Purchasing Groups and the Seller offer this product; and the buyer and user accept it, subject to the foregoing Conditions of Sale and Warranty. which may be varied only by agreement in writing signed by a duly authorized representative of Voluntary Purchasing Groups.
