AEROSOL WASP + HORNET

- Kills wasps, yellow jackets and hornets on contact
- Jet spray reaches nests 20 ft above ground

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wear long sleeved shirt and long pants, shoes and socks, and gloves. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reusing.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsates. See directions for use for additional precautions and requirements.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to steer that wind or rain does not blow or wash pesticide off the treated area.

This pesticide is highly toxic to bees exposed to direct contact on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treated area.

PHYSICAL OR CHEMICAL HAZARDS: Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

In a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PRECAUTIONS AND RESTRICTIONS: Do not use in commercial food processing, preparation, storage or serving areas. Do not apply when food is present. Remove or cover exposed food. Cover all food preparation surfaces and utensils or thoroughly wash before reuse. Remove pets and birds and any cover fish aquaria before spraying. Do not enter or allow others to enter treated area until spray has dried. Do not apply this product in a way that will contact children, pets, or pets, whether directly or through drift. Do not water the treated area to the point of run-off. Do not make applications during rain. All outdoor applications must be limited to spot and crack-and-crawl and wasp and hornet nest treatments only. All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crawl applications, only.

For Control of Nests of Wasps, Yellow Jackets, and Hornets: The best time to spray is in the early morning or early evening, when air temperatures are cooler and most insects are in the nest and little activity is observed around the nest opening. Spray only if it is not windy. Stand a safe distance from the nest, not directly underneath it. Hold container upright at arm's length, pointing the actuator at nest and spraying the opening of the nest. Then spray the rest of the nest until it is saturated. Treated nests will fall out of the nest and die. Any insects returning to the treated nest will also be killed. Wait 48 hours before removing the nest. Foliage of desirable plants contacted during spraying should be hosed off with water.

For Control of Ants and Spiders (Indoors only): For Ants and Spiders found in areas such as electric service boxes, water meter boxes, telephone boxes, along house foundation, foundation vents, sills and ledges, etc., spray in short bursts to contact pests. Ant trails, nurseries, and holes should also be sprayed as necessary. Do not spray foliage of desirable plants. If any spray contact foliage, hose off with water.

ACTIVE INGREDIENTS:

- Tetramethrin: 0.200%
- Esfenvalerate: 0.031%

* OTHER INGREDIENTS: 99.769%

TOTAL: 100.000%

KEEP OUT OF REACH OF CHILDREN.

CAUTION: See First Aid and Precautionary Statements on the back panel.
