PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
CAUTION: Harmful if swallowed or absorbed through the skin. Avoid breathing vapor or spray mist. Avoid contact with the skin, eyes, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, speaking, or using the toilet. Remove and wash contaminated clothing before reuse.
FIRST AID: IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move to fresh air. If person is not breathing, give artificial respiration, preferably by mouth-to-mouth. Call a poison control center or doctor for further treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing and rinse skin with plenty of water for at least 15 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Rinse thoroughly with water for at least 15 minutes. Remove any contact lenses and continue to rinse for at least 15 minutes. Call a poison control center or doctor for treatment advice. IF ON FABRICS: Wash thoroughly with detergent and water for at least 15 minutes. Remove the fabric if necessary. If present, use the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF HOT OR LIME NUMBER. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information, call 1-800-222-1222, 24 hours, 7 days a week.
NOTE TO PHYSICIANS: This product contains petroleum distillates — vomiting may cause aspiration pneumonia.
ENVIRONMENTAL HAZARDS: This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contain water-soluble ingredients. This water has a potential 'run-off' for several weeks after application. Ponds, ditches, and swales with shallow water tables are more prone to produce 'run-off' that contains this product. This product is highly toxic to be exposed to direct treatment on an blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment areas. Do not apply to water, to areas where surface water is present or to intermittent areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinse water. See Directions for Use for additional precautions and restrictions.
PHYSICAL OR CHEMICAL HAZARDS: Contains under pressure. Do not use near or in some heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 100°F may cause bursting. Do not allow spray to contact plastic, painted, or varnished surfaces.

- Flying Insect Spray

A.C.TIVE INGREDIENTS:
Pyrethrum Extract, technical 0.973% 
Pyrethrins II
calcium piperonyl butoxide 0.9% 
N-nonyl bicyclohexyl dicarbonate 3.050% 
INERT INGREDIENTS: 94.925% TOTAL: 100.000%

Contains petroleum distillates 
Equivalent to 1.346% (burycarb)100,000 to 1.350% reduced oil. 

Fresh Outdoor Scent
Contains Pyrethrum, A Botanical Insecticide.

KEEP OUT OF REACH OF CHILDREN CAUTION
See Back Panel for Additional Precautionary Statements.
NET WEIGHT 6.4 oz / 181 g

DIRECTIONS FOR USE: This is a solution of Federal Law to use this product in a manner consistent with its labeling.
For USE IN Food handling and food preparation areas of restaurants and food processing plants, stores, farms, dairies, barns, kennels, factories, hotels, motels, offices, shops, garages (above area engels), supermarkets, food warehousing, bottling plants, barns, mill and egg handling areas of dairies and chicken houses. This product is specifically designed to be used in conjunction with USE IN automatic dispensers. The dispenser activates the metered volume every 15 minutes. Usually the effectiveness of this product will be noticeable within one hour after the dispenser is activated. (Always 24 hour contact is required, the dispenser should be set to start an hour before control is needed and run an hour after control is no longer needed. Keep in mind that such factors such as air flow rate, size of space treated, humidity and room temperature affect insect activity. Therefore, one unit per 5000 square feet of controlled space should be considered as a good adjustment made depending on specific conditions at usage site. For all of the method of insectic, see results are achieved when sanitation and other positive insect preventative practices are followed.

Do not use in aircraft cabins. It is suggested that the container be changed every few months.

OUTDOORS: This product can be used to treat dog kennels, cat pens, dog runs, yard, patios, decks or residential landscapes. Set the dispenser to treat at dusk & 6:00 am when humans are not in the area. When heavy insect infestations are present the dispenser may be set to treat at 15 minute intervals. Place the dispensers out of the reach of pets & children. Use the prevailing wind to assist in carrying the spray throughout the area to be treated. This product can be used to killfleas & small flying moths. Each dispenser will use up 622 square feet. Use enough dispersers to treat the entire area you want protected.

OPERATION: Remove protective cap from top of can & inset can in dispenser. Secure dispenser at least 7 feet from ground or ground at a point where air flow or wind will carry the particles throughout the area to be protected.

Contains no CFCS or Other Ozone Depleting Substances. Federal regulations prohibit CFC propellant use in aerosols.
