Eco-Mite™

Net Contents: 1 QUART · 32 FL. Oz. (946 mL)

Eco-Mite controls phytophagous mites, eggs, and nymphs. Eco-Mite controls other piercing sucking insects, including aphids, mealybugs, scale crawlers, thrips, and whiteflies.

Active Ingredients:
Citronella ................................................................. 1.98%
Rosemary Oil ............................................................... 1.32%
Other Ingredients* ....................................................... 96.7%
Total ........................................................................... 100.00%

*Other Ingredients: Water, Soap, Isopropyl Alcohol

Directions for Use
Shake well before use. Read entire label and use accordingly
For best results, apply when conditions favor mites and insects or at the first sign of mite or insect infestation.

How to Apply
Use as a spray application. Thoroughly cover the upper and lower leaf surfaces until wet – avoid excessive runoff. Apply when conditions favor insect development or at the first sign of infestation. If mites are present, apply day 1, day 2, and day 5 or 7. Continue applications at 7-14 day intervals until pest populations are adequately controlled. Under heavy pressure, use the highest rate and the shortest interval. A rinse might be necessary after multiple short interval applications. Under light pressure, the application interval may be extended.

This product has not been registered by the U.S. EPA. Arborjet represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), Section 25B.

ECO-MITE (RTU) 040-7000

Plant Safety
Local conditions also can influence plant tolerance and may not match those under which testing has been conducted. Before using Eco-Mite, test the product in a small trial to check for flower or leaf burn before using on a large scale. Do not use on newly planted cuttings or plants stressed by drought. Do not apply when temperatures exceed 90 degrees F. Do not spray the blooms directly.

Precautionary Statements
Caution – We recommend good safety practices when using any pesticide, such as avoiding contact with eyes and skin and keeping out of the reach of children. Wear gloves and eye protection when using Eco-Mite. May be harmful if swallowed. If product gets in eyes, flush with water. If on skin, wash with soap and water. If irritation persists, contact a physician. This product is not toxic to wildlife and possesses minimal risk to fish and aquatic organisms. Avoid direct contact with bodies of water.

Storage and Disposal
Turn nozzle to off position. Store container in a cool, dry area and avoid excess heat. Keep from freezing. Offer for recycling if available or discard in trash.

Warranty
Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the directions under normal conditions of use. Neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller. Buyer assumes the risk of any such use.
