FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. IN CASE OF EMERGENCY CALL: 1-800-551-8911.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WATER BALANCE: For best product performance, swimmer comfort, and crystal clear water; Maintain pH in the range of 7.2 to 7.8. Maintain total alkalinity in the range of 60 to 120 ppm per million gallon. Maintain calcium hardness above 200 ppm. Use a POOLIFE test kit that measures all these ranges. Use POOLIFE Pool Care Products to make adjustments. Follow label directions for each product. Take a pool water sample to your authorized POOLIFE dealer regularly for a detailed water analysis. Re-entry into treated pools is prohibited above 4 ppm due to risk of bodily harm.

POOLIFE® Exclusive Pool Care Collection Back to Blue™ Shock System: If you are experiencing a severe algae bloom, which has turned your pool green, the POOLIFE® Exclusive Pool Care Collection Back to Blue™ Shock System can turn your pool sparkling blue again. This two-part system destroys the bacteria and algae that have taken over your pool and then makes it easy to vacuum out. At the start of the season, or if a severe algae bloom occurs during the season, the pool can be treated and returned to its clear blue appearance within 24 hours by using POOLIFE® Exclusive Pool Care Collection Back to Blue™ and POOLIFE® Back to Blue™ as part of the POOLIFE® Exclusive Pool Care Collection Back to Blue™ Shock System.

1. Add 2.6 lbs of POOLIFE® Exclusive Pool Care Collection Back to Blue™ per 15,000 gallons of water into the pool with the circulation system turned on. If any granules settle to the bottom of the pool, use a brush to disperse to assist in helping it to dissolve.
2. Once this product has been completely dispersed in the pool water, change valve to recirculate position and add 2.0 lbs of POOLIFE® Exclusive Pool Care Collection Back to Blue™ per 15,000 gallons of water through the skimmer.
3. Leave the system circulating for 1 hour, then turn off the filter pump and allow water and sediment to settle overnight.
4. The following day, change valve to vacuum position and vacuum the sediment to waste.
5. If the pool has settled out or is not blue in color, repeat steps 1, 3 and 4.
6. Return valve to filter position after pool has been vacuumed.

See next page for additional hazard information.

SHOCK SYSTEM
All-in-one chlorinates, shocks and kills algae
Restores water clarity
Removes phosphates

KEEP OUT OF REACH OF CHILDREN
WARNING
IRRITATING TO EYES AND SKIN.
NOTE: This product is not designed to work with pools that cannot vacuum to waste. Make sure you have the ability to vacuum the debris out of your pool without it passing through the filter.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating to nose and throat.
- Do not get in eyes, on skin, or clothing. Do not handle with bare hands. Wear safety goggles or face shield, and rubber gloves when handling this product. For additional skin protection, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Open in a well-ventilated area. Do not breathe dust or fumes.
- Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not allow to become wet or damp before use.
- Do not mix this product with a small amount of water. Only add this product directly to your pool.
- Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from this product.
- Do not use in hot water. If used with a skimmer, make sure skimmer is completely free of residue from other water treatment products before putting this product in a skimmer.

EXPOSURE TO HEAT CAN CAUSE THIS PRODUCT TO RAPIDLY DECOMPOSE, LEADING TO INTENSE FIRE, EXPLOSION, AND THE RELEASE OF TOXIC GASES.
- Store in a cool, dry, well-ventilated area.
- Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flammable and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS:
This pesticide is toxic to fish and aquatic organisms.
STORAGE & DISPOSAL
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. These empty containers thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contain food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".
EMERGENCY HANDLING:
In case of contamination or decomposition – Do not release containers. Immediately remove container to an open and well-ventilated outdoor area by itself. Floods with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
