DANGER
Contamination or improper use may cause intense fire, explosion, or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not mix this product with a small amount of water. Only add directly to your pool. Do not add water to this product. Add only into water. Highly corrosive. Causes skin and eye damage. May be fatal if swallowed.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
IN CASE OF EMERGENCY CALL: 1-800-454-6911

Net Wt. 1 lb. (16 oz.) (454 g)
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT: This is an effective shock product that works quickly, destroys bacteria and algae and restores clarity to pool water. For crystal clear pool water, follow the following HTM® 4-step pool care program: Step 1: Test and balance water. Step 2: Sanitize. Step 3: Shock at least once a week, and Step 4: Add algicide as directed.

Add the recommended dosages of this product while the filter pump is running. Adjust and maintain pH to 7.2 to 7.6 with HTM pH Plus and HTM pH Minus. Follow label directions. Allow the pH adjusters to dissolve and disperse before adding this product to the pool. When adding this product to your pool, broadcast this product evenly over a wide area of the deepest part of the pool.

DOSEAGE RATE:
SHOCK TREATMENT / SUPER CHLORINATION: A 1 lb. bag of HTM® Preferred Bright Shock will deliver the following amount of available chlorine. To effectively provide a shock treatment to your pool, a chlorine level of 5–10 ppm should be achieved. Re-entry into treated pools is prohibited above levels of 4 ppm for risk of bodily injury. Use entire contents of bag when opened.

ALGAE CONTROL: 1. Follow "POOL SHOCK TREATMENT" directions on this label. 2. Add this product as close as possible to any algae on the sides or bottom of the pool. 3. Do not enter pool until the free available chlorine residual is 1–4 ppm. Re-entry into treated pools is prohibited above levels of 4 ppm for risk of bodily injury. 4. If necessary, repeat the treatment. 5. To prevent possible staining or bleaching, take the following steps immediately after treatment: Thoroughly clean pool by brushing surface of algae growth, vacuum and cycle through filter. For preventative algae control, use your preferred algicide product regularly. However, if problems persist use your preferred algicide product regularly. Follow label directions on that product.

TO DETERMINE YOUR POOL CAPACITY IN U.S. GALLONS, USE THE APPROPRIATE FORMULA BELOW:

POOL SHAPE FORMULA (Use measurements in feet only)

RECTANGULAR: Length x Width x Average Depth x 7.5 = Total Gallons

ROUND: Diameter x Diameter x Average Depth x 5.9 = Total Gallons

OVAL: Maximum Length x Maximum Width x Average Depth x 5.9 = Total Gallons

FREE FORM: Surface Area (Sq. Feet) x Average Depth x 7.5 = Total Gallons

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating to nose and throat.

- Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles and use rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Open in a well-ventilated area. Avoid breathing dust and fumes.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Do not mix this product with a small amount of water. Only add this product directly to your pool water.

- Do not allow to become wet or damp before use.
- Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from this product.
- Do not use this product in a float or feeder that has been used with any other product.
- Do not allow this product to contact other water treatment products.
- Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases.
- Store in a cool, dry, well-ventilated area. Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and flame and burning material (like a lighted cigarette).

**ENVIRONMENTAL HAZARDS:**

This product is toxic to fish and aquatic organisms.

**STORAGE & DISPOSAL:**

Do not contaminate food or feed by storage or disposal or cleaning of equipment. Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

**EMERGENCY HANDLING:** In case of contamination or decomposition - Do not reseed container. Immediately remove container from other open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of container and any remaining contaminated material in an approved landfill area.
