FOR CLEANING AND DECONTAMINATION AGAINST SPACES / OBJECTS SOILED WITH BLOOD / BODY

When handling items soiled with blood or body fluids
- gowns, masks, and eye coverings.
- Blood and other body fluids must be thoroughly
- objects before application of this product. Citrus II
- nes can be used for this purpose.
- y wet surface with new Citrus II Germicidal
- surface to remain wet for 5 minutes and air dry.

IS MATERIALS: Blood and other body fluids must be
- of according to local regulations for infectious waste
- ensing. This is not a baby wipe! Do not flush in toilet.
- open dispensing cap and remove lid by pulling upward.
- or through slits in lid center. Do NOT PUSH FINGER
- ice lid. Dispense wipes by pulling out at an angle. Snap
- to retain moisture. Dispose of used wipes in trash. Do

ATIONARY STATEMENTS
- to Humans and Domestic Animals
- erate eye irritation. Avoid contact with eyes or clothing.
- and water after handling and before eating, drinking,
- or using the toilet.

FIRST AID
- or label with you when calling a poison control center or
- ent.
- open and rinse slowly and gently with water for 15-20
- s if present, after the first 5 minutes, then continue
- center or doctor for treatment advice.

AGE AND DISPOSAL
- Water, food or feed by storage or disposal.
- ge: to children.
- GE/DisPOSAL: In trash after use. Do not flush.
- between uses to retain moisture.
- not reuse or refill this canister. Offer
- available or discard in trash.

Net Contents
This product will clean and disinfect hard, non-porous, surfaces of: bed railings, cabinets, carts, chairs, counters, exam tables, gurneys, isoletes, IV poles, stethoscopes, stretchers, tables, telephones, toilet seats, toilets, bathtubs, bathroom fixtures, shower stalls, sinks, tiles, vanity tops, hospital beds, traction devices, MRI, CAT, scales, paddles, wheelchairs, ultrasound transducers and probes.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

CLEANING/DEODORIZING: Use one wipe to deodorize and completely remove all gross debris from surfaces to be treated.

DISINFECTING: To disinfect hard, non-porous surfaces, thoroughly wet the surface to be treated. Treated surface must remain visibly wet for 5 minutes for disinfection:
- To disinfect against Escherichia coli (E. coli), Escherichia coli 0157:H7, Pseudomonas aeruginosa, Salmonella choleraesuis enterica and Vancomycin Resistant Enterococcus Faecalis (VRE), allow the treated surface to remain wet for 5 minutes.
- To disinfect against Mycobacterium bovis BCG (Tuberculosis), allow the treated surface to remain wet for 5 minutes.
- To disinfect against Staphylococcus aureus and Methicillin Resistant Staphylococcus aureus (MRS), allow the treated surface to remain wet for 5 minutes.

A potable water rinse is required for surfaces in direct contact with food.

For plastic and painted surfaces, spot test on an inconspicuous area before use. For heavily soiled surfaces, clean before following disinfecting instructions.

*VIRUCIDAL ACTIVITY: This product is an effective virucide on hard, non-porous surfaces against:
- Influenza A (H1N1) Virus (ATTC VR-1469, Strain A/PR/8/34), Hepatitis C Virus (HCV) and Bovine Viral Diarrhea Virus (BVDV) when the treated surface is allowed to remain wet for 5 minutes.
- Human Immunodeficiency Virus Type 1 (HIV-1) when the treated surface is allowed to remain wet for 2 minutes.

Use additional wipes if needed to assure that the treated surface remains continuously wet for the prescribed time.

For Ultrasound Transducers and Probes:
Use only on external surfaces of ultrasound transducers and probes.

With a clean washcloth, clean gel from external surface of the ultrasound transducer or probe to be disinfected. Then thoroughly wet probe with wipe. Treated surface must remain wet for 5 minutes. Use additional wipes if needed to assure continuous 5 minute wet contact time. Let air dry.

KILLS HIV-1 and HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1), associated with AIDS.

SPECIAL INSTRUCTIONS

HIV-1 and HCV ON SURFACES AND FLUIDS.

PERSONAL PROTECTION: Use disposable latex gloves or any other appropriate protective gloves.

CLEANING PROCEDURES: Clean from surfaces and areas likely to have blood or body fluids. Germicidal Deodorizing Wipes. Allow surface or item to dry.

CONTACT TIME: Thoroughly clean and disinfect. Germicidal Deodorizing Wipes. Allow surface or item to dry.

DISPOSAL OF INFECTION: Autoclave and dispose of contaminated waste. Do not use for personal cleaning.

TO OPEN PACKAGE: Flip the flip-top on the package to release product for use. Discard flip-top before use. If the package is taped, remove tape before opening.

PRECAUTIONS: Hazardous waste.

CAUTION: Causes minor skin irritation. Wash thoroughly with soap and water before eating, chewing gum, using tobacco, or handling food.

Have the product container on hand, or going for treatment, when using. If in Eyes: Hold eye open for 15 minutes. Remove contact lenses if worn. If symptom persists, call a poison control center.

STORAGE:
Do not contaminate or store near food, food equipment, or food processing equipment. Pesticide Storage: Store in a dry, area accessible to the public. Nonrefillable container. Do not puncture or incinerate. Place empty canister for recycling.

CONTAINER STOR:
Wipes: Dispose of wipe in secure container. Canister: Tightly close lid. Nonrefillable container. Do not puncture or incinerate. Place empty canister for recycling.
