It is a violation of Federal law to use this product in a manner inconsistent with this label.

READ THIS LABEL: Read this entire label and follow all use directions and precautions. Use only for the sites, pests and application methods described on this label.

USE RESTRICTIONS:
This bait station may be used to store accessible to children and pets.

CAUTION:
While still holding tab, squeeze harborage as much as possible. If reinfestation does occur, repeat treatment.

SELECTION OF TREATMENT AREAS:
Station when bait is consumed or contaminated.

USE RESTRICTIONS:
While wearing gloves, replace bait in bait units are purchased, place bait stations at 15 to 30 foot intervals. Maintain a constant supply of fresh bait for 10 days or until signs of rat or mouse

CONTAINER:
Store bait block refills out of reach of children and pets.

APPLICATION DIRECTIONS:
While wearing gloves, place 1 or 2 blocks of bait in the bait station. Replace each block or necessary. See additional GRAPHICS AND TEXT. Place the bait station at highest point of activity (hanging from cabinets, along a wall or in corners where rats and mice are closest to food sources.) If additional units are purchased, place bait stations at 15 to 30 foot intervals. Maintain a constant supply of fresh bait for 10 days or until signs of rat or mouse activity cease in infested areas. While wearing gloves, replace bait in bait stations when bait has consumed or contaminated.

Follow-up: Wearing gloves, collect and properly dispose of any leftover bait or carcasses. To discourage reinfestation, eliminate food, water and harborage as much as possible. In most instances does occur repeated treatment.

PRECAUTIONARY STATEMENTS:
Harmful to Humans and Domestic Animals.

CAUTION:
Harmful if swallowed. Keep away from children, domestic animals and pets. Wash thoroughly with soap and water after handling, and before eating, drinking, cleaning, or using tobacco. Anyone who handles bait, within a station, or retrieves carcasses or unused bait must wash their hands.

NOTE TO PHYSICIAN OR VETERINARIAN
If an animal eats this bait, call a veterinarian at once. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of limb use or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroids.

ENVIRONMENTAL HAZARDS
CAUTION:
This product is extremely toxic to fish, birds, and other wildlife. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets.

Pesticide Disposal and Container Handling: Nonrefillable Container. Do not reuse or refill this container except as described in the Directions for Use. If Empty: Place in trash or offer for recycling if available. Properly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY:
To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling is contrary to label instructions.
