area of drains is permitted, but do not apply product directly down into drains or sewers. Crack & Crevice or spot treatment to the walls under marvelous coats is not permitted. Reapply as necessary.

**OUTDOOR TREATMENTS**

Do not apply this product, by any application method, to linoleum, bamboo or other TRESPASS areas. Treatments to the structures may be made as a CRACK & CREVICE, VOID, SPOT OR GENERAL treatment in a manner consistent with its labeling.

**Prescription Treatment**

*brand*

**Pressurized Insecticide**

**KILLS:** Ants (including foraging Carpenter, Fire, Hanester and Pharaoh Ants), Asian Lady Beetles, Red Bugs, Brown Boysen Beetles, Red Bugs, Centipedes, Closen Mites, Cluster Flies, Cockroaches, Crickets, Dermaptera, Drugstore Beetles, Earwigs, Elm Leaf Beetles, Fleece Beetles (Red and Confused), Fruit Flies, Grain Weevils, Indianmeal Moths, Millipedes, Phorid Flies, Pinwheels, Powder Post Beetles, Silverfish, Spiders (including Black Widow), Springtails and Trogoderma

**FOR USE IN AND AROUND:** Apartments; Campgrounds; Homes; Hospital; Hotels; Motels; Food and Nurse Rooms; Food and Non-Food Areas of Food Handling Establishments (including Meat Packing and Food Processing Plants, Restaurants; Supermarkets; Nursing Homes; Resorts; Schools; Transportation Equipment (Boats, Boats, Trains, Trains, Planter, Utilities, Warehouses, and other Commercial and Industrial Buildings)

**Use in cargo areas only. Do not use in aircraft cabinets.**

**ACTIVE INGREDIENT:**

Dinofuran: N'-N'-(3,4-dihydro-3 unsubstituted)-guanidine .......................... 0.05%

**OTHER INGREDIENTS:**

- 99.95%

**EPA Reg. No. 499-531 • EPA Est. No. 7969-MO-1**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**PRECAUTIONARY STATEMENTS**

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to aquatic invertebrates. Do not apply directly to water, or to areas where water may be retained, to intermittent areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Drain and runoff from treated areas may be hazardous to aquatic organisms in water adjacent to treated areas. Do not dispense equipment washwaters or rinse into a natural drain or water body.

This product is toxic to honey bees. The persistence of residues and potential residual toxicity of Dinofuran in nectar and pollen suggests the possibility of chronic toxic risk to honey bee larvae and the eventual insufficiency of the hive.

- This product is toxic to bees exposed to residues for more than 38 hours following treatment.
- Do not apply this product to blooming, pollen-shedding or nectar-producing parts of plants if bees may be foraging there during this period.
- Avoid contamination of registration of bees. The application is made in response to a public health emergency declared by appropriate federal or state authorities.
- Dinofuran and its degrade, MNG, have the properties and characteristics associated with chemicals detected in groundwater. The high water solubility of Dinofuran and, its degradation, MNG, coupled with its very high mobility, and resistance to biodegradation indicates that this compound has a strong potential to leach to the subsurface, under certain conditions, as a result of label use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

**PHYSICAL OR CHEMICAL HAZARDS**

Flammable. Contaminates crops, bedding, Boonker Beetles, Brown Boysen Beetles, Quiet, has a low index of toxicity, and opend, and open. Do not puncture or incinerate container. Exposure to temperatures above 100°F may cause burning. Do not spray on plastic, painted or varnished surfaces. Do not spray directly into any electronic equipment such as radios, televisions, computers, etc.

**DIRECT USES**

**IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.**

**USE RESTRICTIONS**

- Kills pests on contact. Pests must be directly contacted at time of application in order to be effective.
- Do not apply this product in hospital patient rooms or nursing home patient rooms while the patient is occupied.
- Do not apply to institutions (including daycare centers, libraries, sport facilities, etc.) in the immediate area when occupants are present.
- Do not apply to aircraft cabinets.

See side panels for additional Directions for Use and Storage and Disposal.

**WEIGHT:**

1 lb, 4 oz (20 oz)

**HOW TO USE WHITMIRE MICRO-GEN CRACK & CREVICE INJECTION SYSTEM**

**CRACK & CREVICE TREATMENT:** Use with the supplied actuator and injection tubes or other Whitmire Micro-Gen equipment. Place injection tip into cracks, crevices, holes and other small openings where pests may be harboring, living and breeding. For light infestations, move injection tip along cracks while treating at the rate of 3 ft/sec. For heavy infestations, move injection tip along cracks while treating at the rate of 9 ft/sec. For closed rooms, calculate the wall’s cubic area and treat at the rate of 1 − 5 sq. 9.97%. Several holes may be required in long-running voids. Reapply as necessary.

**SPOT TREATMENT:** Use with the supplied actuator and injection tubes or other Whitmire Micro-Gen equipment. Hold container upright while spray. Direct nozzle 1/2” from surface to be treated. Apply directly on pests in these locations.

**INDOOR TREATMENTS**

**CRAWLING INSECTS:** Apply as a Crack & Crevice or spot treatment where pests are harboring, traveling or breeding. For example, openings around lines and sinks, under refrigerators, pantries, behind baseboards, washing machines, stoves, cabinets, sewer, floor drains and meter boxes. In commercial areas, apply as a Crack & Crevice or spot treatment in office areas, stainless steel equipment, sheathing, machinery, storage areas, pallets and other areas where pests may be harboring, traveling or entering the structure. Reapply as necessary.

**BED BUGS:** Apply as a Crack & Crevice or spot treatment where pests are harboring, traveling or breeding. For example, openings around lines and sinks, under refrigerators, pantries, behind baseboards, washing machines, stoves, cabinets, sewer, floor drains and meter boxes. In commercial areas, apply as a Crack & Crevice or spot treatment in office areas, stainless steel equipment, sheathing, machinery, storage areas, pallets and other areas where pests may be harboring, traveling or entering the structure. Reapply as necessary.

**IN A MANNER INCONSISTENT WITH ITS LABELING.**
