An Aqueous Suspension Biofungicide

**ACTIVE INGREDIENT:**
GQT 713 strain of *Bacillus subtilis* .................................. 1.34%

**OTHER INGREDIENTS** .................................................. 98.66%

**TOTAL** ........................................................................ 100.00%

*Contains a minimum of 1x10^6 cfu/ml
EPA Reg. No. 264-1155-68539
EPA Est. No. 69592-MEX-1

U.S. Patent Nos. 6,060,051; 6,103,228; 6,291,426;
6,417,163 on GQT 713 strain of *Bacillus subtilis*  

**NET CONTENTS:** **2.5 GAL.** (9.46 L)

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

See attached booklet for First Aid, Precautionary Statements, Storage & Disposal Instructions and Directions for Use.

LUSD0039-003

Lot No.
10. Compatibility with all Altogether Equipment, Conduct a spray compatibility test in each case with adjustments or repairs as planned.

11. Apply CASE. During the test, fill the tank of the water application system with water to be used in the test. 

12. Use CASE, if necessary, to adjust the amount of water to be used in the test. 

13. The water must contain a functional check valve, which should be secured on the suction side of the pump. 

14. The spray nozzle must contain a functional check valve, which should be secured on the spray side of the pump. 

15. The spray nozzle must be functional and provide a smooth flow. 

16. The spray nozzle must be functional and provide a smooth flow. 

17. The spray nozzle must be functional and provide a smooth flow. 

18. The spray nozzle must be functional and provide a smooth flow. 

19. The spray nozzle must be functional and provide a smooth flow. 

20. The spray nozzle must be functional and provide a smooth flow. 

21. The spray nozzle must be functional and provide a smooth flow. 

22. The spray nozzle must be functional and provide a smooth flow. 

23. The spray nozzle must be functional and provide a smooth flow. 

24. The spray nozzle must be functional and provide a smooth flow. 

25. The spray nozzle must be functional and provide a smooth flow. 

26. The spray nozzle must be functional and provide a smooth flow. 

27. The spray nozzle must be functional and provide a smooth flow. 

28. The spray nozzle must be functional and provide a smooth flow. 

29. The spray nozzle must be functional and provide a smooth flow. 

30. The spray nozzle must be functional and provide a smooth flow. 

31. The spray nozzle must be functional and provide a smooth flow. 

32. The spray nozzle must be functional and provide a smooth flow. 

33. The spray nozzle must be functional and provide a smooth flow. 

34. The spray nozzle must be functional and provide a smooth flow. 

35. The spray nozzle must be functional and provide a smooth flow. 

36. The spray nozzle must be functional and provide a smooth flow. 

37. The spray nozzle must be functional and provide a smooth flow. 

38. The spray nozzle must be functional and provide a smooth flow. 

39. The spray nozzle must be functional and provide a smooth flow. 

40. The spray nozzle must be functional and provide a smooth flow. 

41. The spray nozzle must be functional and provide a smooth flow. 

42. The spray nozzle must be functional and provide a smooth flow. 

43. The spray nozzle must be functional and provide a smooth flow. 

44. The spray nozzle must be functional and provide a smooth flow. 

45. The spray nozzle must be functional and provide a smooth flow. 

46. The spray nozzle must be functional and provide a smooth flow. 

47. The spray nozzle must be functional and provide a smooth flow. 

48. The spray nozzle must be functional and provide a smooth flow. 

49. The spray nozzle must be functional and provide a smooth flow. 

50. The spray nozzle must be functional and provide a smooth flow. 

51. The spray nozzle must be functional and provide a smooth flow. 

52. The spray nozzle must be functional and provide a smooth flow. 

53. The spray nozzle must be functional and provide a smooth flow. 

54. The spray nozzle must be functional and provide a smooth flow. 

55. The spray nozzle must be functional and provide a smooth flow. 

56. The spray nozzle must be functional and provide a smooth flow. 

57. The spray nozzle must be functional and provide a smooth flow. 

58. The spray nozzle must be functional and provide a smooth flow. 

59. The spray nozzle must be functional and provide a smooth flow. 

60. The spray nozzle must be functional and provide a smooth flow. 

61. The spray nozzle must be functional and provide a smooth flow. 

62. The spray nozzle must be functional and provide a smooth flow. 

63. The spray nozzle must be functional and provide a smooth flow. 

64. The spray nozzle must be functional and provide a smooth flow. 

65. The spray nozzle must be functional and provide a smooth flow. 

66. The spray nozzle must be functional and provide a smooth flow. 

67. The spray nozzle must be functional and provide a smooth flow. 

68. The spray nozzle must be functional and provide a smooth flow. 

69. The spray nozzle must be functional and provide a smooth flow. 

70. The spray nozzle must be functional and provide a smooth flow. 

71. The spray nozzle must be functional and provide a smooth flow. 

72. The spray nozzle must be functional and provide a smooth flow. 

73. The spray nozzle must be functional and provide a smooth flow. 

74. The spray nozzle must be functional and provide a smooth flow. 

75. The spray nozzle must be functional and provide a smooth flow. 

76. The spray nozzle must be functional and provide a smooth flow. 

77. The spray nozzle must be functional and provide a smooth flow. 

78. The spray nozzle must be functional and provide a smooth flow. 

79. The spray nozzle must be functional and provide a smooth flow. 

80. The spray nozzle must be functional and provide a smooth flow. 

81. The spray nozzle must be functional and provide a smooth flow. 

82. The spray nozzle must be functional and provide a smooth flow. 

83. The spray nozzle must be functional and provide a smooth flow. 

84. The spray nozzle must be functional and provide a smooth flow. 

85. The spray nozzle must be functional and provide a smooth flow. 

86. The spray nozzle must be functional and provide a smooth flow. 

87. The spray nozzle must be functional and provide a smooth flow. 

88. The spray nozzle must be functional and provide a smooth flow. 

89. The spray nozzle must be functional and provide a smooth flow. 

90. The spray nozzle must be functional and provide a smooth flow. 

91. The spray nozzle must be functional and provide a smooth flow. 

92. The spray nozzle must be functional and provide a smooth flow. 

93. The spray nozzle must be functional and provide a smooth flow. 

94. The spray nozzle must be functional and provide a smooth flow. 

95. The spray nozzle must be functional and provide a smooth flow. 

96. The spray nozzle must be functional and provide a smooth flow. 

97. The spray nozzle must be functional and provide a smooth flow. 

98. The spray nozzle must be functional and provide a smooth flow. 

99. The spray nozzle must be functional and provide a smooth flow. 

100. The spray nozzle must be functional and provide a smooth flow.

**Application Information:**

- **Application Deadline:** 30th June 2023
- **Application Fee:** $100
- **Application Requirements:**
  - Transcript
  - Two Letters of Recommendation
  - Letter of Intent

**Additional Information:**

- **Externship Duration:** 12 months
- **Externship Placement:** Various locations across the United States
- **Externship Goals:** To gain practical experience in a real-world setting.
**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMAN & DOMESTIC ANIMALS**

**CAUTION**

Harmful if inhaled. Avoid breathing spray mist. Remove contaminated clothing and wash before reuse.

**FIRST AID:**

- If inhaled:
  - Move person to fresh air.
  - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
  - Call a poison control center or doctor immediately. 

- If in eyes:
  - Wash eyes immediately with plenty of water. Do not rub eyes.

- If on skin:
  - Wash the skin immediately with plenty of water. Do not rub skin.

**IF SWALLOWED:**

- Do not induce vomiting, unless specifically directed to do so by an EMT or doctor.
- Call a poison control center or doctor immediately.

**PRODUCT PROTECTIVE EQUIPMENT (PPE):**

- Long-sleeved clothing and long pants
- Waterproof gloves
- Eye protection

**ENGINEERING CONTROLS:**

- When using in closed spaces, enclose work areas, or where a high concentration of the pesticide is anticipated, observe the following precautions:
  - Wear personal protective equipment (PPE) as required.
  - Use ventilation or other means of controlling exposure.

**USER SAFETY RECOMMENDATIONS:**

- Wear appropriate PPE when handling the product.
- Avoid contact with skin and eyes.
- Wash hands after handling the product.

**EMERGENCY INFORMATION:**

**FOR MEDICAL AND TRANSPORTATION EMERGENCIES ONLY Call 1-800-322-2264.**

**DIRECTIONS FOR USE:**

- Read and follow all instructions on the label.
- Do not apply near water or near areas where surface water is present.
- Do not contaminate water or思考器 or soil when disposing of equipment or washwater.
- Do not contaminate water or思考器 or soil.

**STORAGE AND DISPOSAL:**

- Do not contaminate water, food, or feed by storage or disposal.
- **PESTICIDE STORAGE:** Store in a dry area inaccessible to children. Store in original containers only. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** To avoid contamination, use all material in this container by applying it according to label directions. If equipment cannot be reused, offer remaining product to a waste disposal facility or disposal program (often such programs are run by state or local governments or by industry).

**CONTAINER DISPOSAL:**

- For 1.5-gallon, 2.5-gallon, 3-gallon, or 5-gallon plastic containers – Disposal of returned containers is your responsibility. Do not reuse this container for any other purpose.
- When disposing of the container, comply with applicable federal, state, and local rules and regulations regarding disposal of containers.
- Do not dispose of in drains or sewers or on land.
- Do not burn, unless allowed by state and local authorities. For indoor use, use only as directed.
- Use a non-sparking tool to open the container.
- After opening the container, clean the inside of the container with water and a detergent.
- Pour the contents of the container into a suitable disposal system.
- Close the container and place in a sealable plastic bag.
- Place the bag in a trash container for disposal.

- For 10-gallon plastic containers – Nonrefillable containers. Do not reuse this container for any other purpose.
- When disposing of the container, comply with applicable federal, state, and local rules and regulations regarding disposal of containers.
- Do not burn, unless allowed by state and local authorities. For indoor use, use only as directed.
- Use a non-sparking tool to open the container.
- After opening the container, clean the inside of the container with water and a detergent.
- Pour the contents of the container into a suitable disposal system.
- Close the container and place in a sealable plastic bag.
- Place the bag in a trash container for disposal.

- For 20-gallon plastic containers – Nonrefillable containers. Do not reuse this container for any other purpose.
- When disposing of the container, comply with applicable federal, state, and local rules and regulations regarding disposal of containers.
- Do not burn, unless allowed by state and local authorities. For indoor use, use only as directed.
- Use a non-sparking tool to open the container.
- After opening the container, clean the inside of the container with water and a detergent.
- Pour the contents of the container into a suitable disposal system.
- Close the container and place in a sealable plastic bag.
- Place the bag in a trash container for disposal.

**NOTE:**

- If burned, call 911.
- For 10-gallon or larger refillable mini-bulk containers – Remove empty container for reuse.
- Refillable container. Only use this container for the same pesticide. Do not reuse this container for any other purpose.
- When disposing of the container, comply with applicable federal, state, and local rules and regulations regarding disposal of containers.
- Do not burn, unless allowed by state and local authorities. For indoor use, use only as directed.
- Use a non-sparking tool to open the container.
- After opening the container, clean the inside of the container with water and a detergent.
- Pour the contents of the container into a suitable disposal system.
- Close the container and place in a sealable plastic bag.
- Place the bag in a trash container for disposal.
