FORTRESS Spot On® for DOGS

FORTRESSTM SPOT ON® FOR DOGS 8 weeks or older
EPA Reg. No. 88052-8-89459
EPA Est. No. 74720-DEU-01

ACTIVE INGREDIENT:
Fipronil ........................................................................................................... 9.7%
OTHER INGREDIENTS: .................................................................................... 90.3%
TOTAL: 100.0%

Kills fleas and all stages of brown dog ticks, American dog ticks, lone star ticks, and deer ticks (which may carry Lyme disease) and chewing lice.

KEEP OUT OF REACH OF CHILDREN
CAUTION
FORTRESSTM SPOT ON® FOR DOGS contains the active ingredient, fipronil, that effectively targets fleas, ticks, and chewing lice. Fipronil collects in the oils of the skin and hair follicles, and continues to be released from hair follicles onto the skin and coat, resulting in long-lasting activity.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply product. To prevent injury to you and your dog, read entire label and directions on the package insert before each use. Follow all directions and Precautionary Statements carefully. This product must only be used on dogs. Do not use on rabbits or on other animals.

Precautional consumer: Si usted no puede leer inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente. (To the user: If you cannot speak English, do not use this product until the label has been fully explained to you.)

To kill fleas and all stages of brown dog ticks, American dog ticks, lone star ticks, and deer ticks (which may carry Lyme disease) and chewing lice, apply this product to dogs and puppies (8 weeks or older) as follows. To remove and open applicator pipette, see reverse side.

To APPLY FORTRESS SPOT ON® FOR DOGS
Place pipette tip through dog’s hair to the skin level between the shoulder blades. Squeeze pipette, applying entire contents in a single spot to the dog’s skin. Avoid superficial application to the dog’s hair. Allow area to dry before touching treated area. Only one pipette per treatment is needed.

FORTRESSTM SPOT ON® FOR DOGS can also be used for the treatment and control of flea, tick, and chewing lice infestations on breeding, pregnant, and lactating bitches. FORTRESSTM SPOT ON® FOR DOGS aids in the control of sarcoptic mange infestations. Multiple monthly treatments are recommended for the elimination of mites.

FREQUENCY OF APPLICATION
When used monthly, FORTRESSTM SPOT ON® FOR DOGS completely controls flea, tick, and chewing lice infestations. Research demonstrates that FORTRESSTM SPOT ON® FOR DOGS kills adult fleas for up to three months. Although FORTRESSTM SPOT ON® FOR DOGS can control fleas for up to three months, if there is a high risk of re-infestation or if the pet has fleas which may cause flea allergy dermatitis, an extra monthly application may be needed. FORTRESSTM SPOT ON® FOR DOGS kills ticks for at least one month. A once monthly application is recommended where tick control is needed. A once monthly application is recommended when chewing lice are present. FORTRESSTM SPOT ON® FOR DOGS remains effective even after bathing, water immersion, or exposure to sunlight. Avoid contact with treated area until dry. Do not reapply FORTRESSTM SPOT ON® FOR DOGS for 30 days.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

HOTLINE NUMBER: Have the product container or label with you when calling a poison control center, doctor or going for treatment. Call 1-800-234-2269 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS. CAUTION. Causes moderate eye irritation. Harmful if swallowed. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

HAZARDS TO DOMESTIC ANIMALS
For external use only. Do not use on puppies under 8 weeks of age. Individual sensitivities, while rare, may occur after using any pesticide product. Dogs may experience some temporary irritation at the site of product application. If signs persist, or become more severe within a few days of application, consult a veterinarian. If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating treatment. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated or aged dogs. Call 1-800-234-2269 for assistance.

Side effects. Monitor your dog after application. Side effects may include skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or call 1-800-234-2269.

DO NOT USE ON CATS. Keep cats away from treated dogs for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian.

QUESTIONS OR COMMENTS ABOUT THIS PRODUCT
Call 1-800-234-2269.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.
