SAN-I-WARE is a low-foaming cleaner/sanitizer for use in restaurants and other food handling service institutions. SAN-I-WARE may be used to sanitize glasses, dishes and equipment. In addition, it may be used on floors, walls, countertops, refrigerators and food storage areas.

SAN-I-WARE will not leave streaks or spots on glassware or dishes.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GLASSES AND DISHES
5 Step Sanitizing Procedure
1. Pre-flush or pre-scrub equipment and utensils. If needed, pre-soak to remove gross food particles and soil.
2. Wash equipment and utensils in lukewarm water that contains an adequate amount of a good detergent or cleaner. Keep this water clean by frequent changing.
3. Rinse equipment and utensils free of wash water prior to sanitization.
4. Sanitize equipment and utensils by immersing them in a solution of 1 oz. SAN-I-WARE per 5 gallons of lukewarm water (provides 25 ppm titratable iodine). Allow one minute contact time (or longer if required by local sanitation codes). Change water as needed to maintain a minimum of 25 ppm iodine, replacing at least once daily. Use approved iodine test kit to check concentration. In mechanical operations, do not reuse solutions. These solutions may be used to clean floors, walls, and other areas.
5. After sanitizing for one minute or more, allow equipment and utensils to air dry. Do not rinse.

EQUIPMENT SANITIZATION
Remove gross food particles by pre-flushing or pre-scrapping. Before sanitizing, clean equipment with 1 oz. SAN-I-WARE to 5 gallons lukewarm water. Rinse with potable water. To sanitize, spray or immerse equipment with a fresh solution of 1 oz. SAN-I-WARE to 5 gallons cold or lukewarm water (provides 25 ppm titratable iodine). Allow one minute contact time, or longer if required by local sanitation codes. When ready to use, drain off sanitizing solution.

PRECAUTIONARY STATEMENTS
Hazards to humans and domestic animals
DANGER. Causes eye damage and skin irritation. Do not get into eyes or on clothing. Harmful if swallowed. Wear safety glasses or goggles and rubber gloves when handling. Wash thoroughly with soap and water after handling.
ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds or estuaries, oceans or other water unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

CHEMICAL HAZARDS: May involve iodine fumes when heated.

STORAGE AND DISPOSAL
STORAGE: Keep container closed when not in use. Do not store below 32°F or above 100°F for extended periods.
PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of pesticide waste or rinse is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying.

5 gallon or less containers: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.
Capacity greater than 5 gallon containers: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinse into application equipment or a mix tank or store rinse for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.

KEEP OUT OF REACH OF CHILDREN
DANGER FIRST AID

In case of eye contact: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Call a poison control center or doctor for treatment advice.

In case of skin contact: Remove contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person take a glass of water if able to swallow. Do not induce vomiting except to do so by the Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth method.

NOTE TO PHYSICIAN: Probable mucous damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.
