PRO GUARD ABLATIVE

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This product uses Ablative Copolymer Technology to enable it to wash away with use, constantly exposing fresh and effective lubricate. This Ablative Copolymer Technology also eliminates the build-up of old spent coatings and the heavy sanding needed to remove them. This product provides a clean long protection against delamination, erosion and other forms of marine fouling in water with moderate to heavy fouling. For use in fresh, salt and brackish waters.

COMPATIBILITY: This product can be applied over existing antifouling as long as the old coating is highly adhered and is in sound condition. When applying over conventional antifouling paint, thoroughly sand with 80 grit wet-or-dry sandpaper. Sulfur based coatings should be removed prior to application of this product.

VOC: Less than 370 grams/liter
COATEE REQUIRED: 2 coats. 3 coats on bare wood
THINNING: This is not necessary. Do not exceed 10% by volume
THINNER: Interlux® Brush Ease 433
DRY TIMES: Touch dry - 2 hours, 79°F (26°C) To Recoat - 16 hours
To Launch: Minimum 16 hours. Maximum - 65 days
CLEAN UP: Interlux® Brush Ease 433
THEORETICAL COVERAGE: 458 sq. ft/gal/coat
APPLICATION TEMPERATURE: 50°F (10°C) and above

APPLICATION SYSTEMS:

PREVIOUSLY PAINTED SURFACES - GOOD CONDITION: Remove all traces of loose paint and contamination by sanding the entire surface well with 80 grit sandpaper. Wipe surface clean with Interlux Special Thinner 216. 8 fl oz thoroughly. Touch up bare areas. Apply two full coats of this product by brush or 3/8 inch roller. Do not apply thin coats. If during application, the touch-up or roller strips, thin with Interlux® Brush Ease 433 to improve handling. See compatibility section for additional information.

PREVIOUSLY PAINTED SURFACES - POOR CONDITION: Completely remove all old antifouling paint with Interlux® Fiberglass Primer® 295W for fiberglass and epoxy surfaces, Interlux® Fiberglass Paint® 195 for wood and by sanding underwater metals to near white metal. Proceed with application system for bare wood as described below.

BARE FIBERGLASS - (POLYESTER OR VINYLSTER)

SURFACE PREPARATION: Wash entire surface thoroughly with Interlux® Fiberglass Solvent Wash 202 changing rags frequently. Before liquid dries, wipe with a clean dry cloth. Be sure all wax and other contamination is removed, failure to properly clean the surface will result in paint delamination. Sand any imperfections and repair with Interlux® Surfacing and Filling Compound 417A/418B sand and wipe clean. Sanding will not remove surface contamination.

BARE FIBERGLASS - NO SAND SYSTEM: After the surface has been prepared as described above - Apply one thin continuous coat of Interlux® Alkali Fiberglass Primer® with brush or roller. Follow label directions for overcoating. Apply two coats of this product.

BARE FIBERGLASS - SANDING SYSTEM: After the surface has been prepared as described above - Sand entire surface well with 80 grit sandpaper until all flake, minute fissures are removed; wipe off sanding residue with Interlux® Fiberglass Solvent Wash 202. Apply two coats of this product.

BARE WOOD: Remove any surface contamination by wiping with Interlux Special Thinner 216. Sand entire surface with 80 grit sandpaper. Wipe off sanding residue with Interlux® Special Thinner 216. Repairs any imperfections with Interlux® Surfacing and Filling Compound 417A/418B sand and wipe clean. Apply first coat of this product reduced with Interlux® Brush Ease 433 (10%) maximum. Apply two additional coats unvaried. Allow a minimum of 16 hours between coats. Fill seams (if necessary) with Interlux® Seam Compound 30 between coats and second coats of antifouling paint.

UNDERWATER METALS: Contact the Interlux® Technical Service Department at 1-800-488-7899 for full details on how to properly prime underwater metals. Do not use on aluminum.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING:

Causes eye irritation. Harmful if inhaled through nose. Avoid contact with skin, eyes or clothing. Use protective clothing such as gloves, long-sleeved cotton shirt, long pants and hat. May be fatal if swallowed or inhaled. Do not breathe vapor or spray mist. While spraying, paint or walking on sanding boat surfaces wear mask or air respirator. Notify local Department of Health if released. Call the National Institute for Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

FIRST AID:

If swallowed:
- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or go to hospital, then give artificial respiration, preferably mouth to mouth if possible.
- Call a poison control center or doctor for further treatment advice.

Note to Physician: Contains petroleum distillate - vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS:

The material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow drift or runoff into drainages. Wash entire surface thoroughly with Interlux® Fiberglass Solvent Wash 202 changing rags frequently. Before liquid dries, wipe with a clean dry cloth. Be sure all wax and other contamination is removed, failure to properly clean the surface will result in paint delamination. Sand any imperfections and repair with Interlux® Surfacing and Filling Compound 417A/418B sand and wipe clean. Sanding will not remove surface contamination.

DANGER: Inflammable. Do not smoke, use or store near an open flame or in the presence of fumes. Do not use on areas where solvents are prohibited.

PHYSICAL OR CHEMICAL HAZARDS:

Flammables. Keep away from heat, sparks or open flames.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. Open containers are prohibited.

PESTICIDE DISPOSAL:

Pesticide wastes are costly hazardous. Improper disposal of excess pesticides may result in heavy fines and legal penalties. Consult your local EPA Regional Office for guidance.

CONTAINER DISPOSAL:

Non-returnable container. Do not re-use or refill this container. Dispose of container in a sanitary landfill or incinerate. If shipped in a motor vehicle, comply with the requirements of the Department of Transportation. For returnable containers, return to Interlux® Technical Service Department.
