How to Apply

Step 1.

Hold upright with foil side toward you and snap applicator tip.

Applicator:

Part the cat's hair above the shoulder blades, at the base of the neck. Place the applicator tip just above the skin and squeeze. Apply entire contents of the applicator in a single spot directly onto the cat's skin. Do not apply on top of the hair coat. Avoid contact with treated area until dry.

Step 2.

Or use scissors to open.

foil backing; then peel away the foil.

Directions for Use

To kill fleas, flea eggs & larvae, ticks, & chewing lice apply FRONTLINE TOP SPOT for Cats as follows:

- To BROADSPECTRUM: Lift the plastic tab on the foil side of the applicator. Peel away the foil. Scissors may be needed for additional resistance. To kill fleas, flea eggs & lice, and to control chewing lice apply FRONTLINE TOP SPOT for Cats as follows:

1. To BROADSPECTRUM: Lift the plastic tab on the foil side of the applicator. Peel away the foil. Scissors may be needed for additional resistance.

2. To kill fleas, flea eggs & larvae, ticks, & chewing lice apply FRONTLINE TOP SPOT for Cats as follows:

- To BROADSPECTRUM: Lift the plastic tab on the foil side of the applicator. Peel away the foil. Scissors may be needed for additional resistance.

3. To kill fleas, flea eggs & larvae, ticks, & chewing lice apply FRONTLINE TOP SPOT for Cats as follows:

- To BROADSPECTRUM: Lift the plastic tab on the foil side of the applicator. Peel away the foil. Scissors may be needed for additional resistance.
FRONTLINE® TOP SPOT® for Cats is:
- Fast-acting
- Long-lasting
- Waterproof

One spot application is all that’s needed:
FRONTLINE TOP SPOT spreads from the single point of application, rapidly covering the entire cat and localizing on the skin, on the surface of the skin and in the sebaceous glands. These glands act as a reservoir, continuously replenishing FRONTLINE TOP SPOT onto the skin and hair coat, so it keeps working even if the cat gets wet.

Fleas, ticks and chewing lice are killed quickly after coming into contact with a treated cat. Fleas and ticks do not need to bite the cat in order to die.

FRONTLINE TOP SPOT for Cats:
- **Fleas**
  - Kills fleas, flea eggs and flea larvae
  - Prevents all flea stages (eggs, larvae, pupae) from developing
  - Prevents all flea stages from establishing infestations
  - Kills ticks which may cause flea allergy dermatitis
- **Ticks**
  - Kills all life stages of ticks (larva, nymph and adult), including deer ticks (Bacillus americanum), brown dog ticks (Rhipicephalus sanguineus), American dog ticks (Dermacentor variabilis) and lone star ticks (Amblyomma americanum)
  - Prevents all tick stages from establishing infestations
  - Kills ticks that may transmit Lyme disease, Rocky Mountain spotted fever, ehrlichiosis, babesiosis, anaplasmosis, haemobartonellosis and other tick-borne diseases
- **Lice**
  - Rapidly eliminates chewing lice infestations

FRONTLINE TOP SPOT is approved for use on all cats, including:
- Breeding, pregnant and lactating queens
- Kittens as young as 8 weeks and over 1.5 lbs.
FRONTLINE®
Top Spot®
FOR CATS

For use ONLY on CATS & KITTENS 8 weeks or older and weighing over 1.5 lbs. Fast-acting, long-lasting, waterproof treatment and control of fleas, flea eggs & larvae, ticks, and chewing lice.

KEEP OUT OF REACH OF CHILDREN

FRONTLINE® TOP SPOT® for Cats: Fleas
• Kills fleas, flea eggs and flea larvae
• Prevents all flea stages (eggs, larvae, pupae) from developing
• Stops existing infestations and prevents establishment of new infestations
• Kills fleas which may cause flea allergy dermatitis

Ticks
• Kills all life stages of ticks (larva, nymph and adult), including brown dog ticks (Rhipicephalus sanguineus), American dog ticks (Dermacentor variabilis), lone star ticks (Amblyomma americanum) and deer ticks (Ixodes scapularis)
• Kills ticks that may transmit Lyme disease, haemobartonellosis, ehrlichiosis, babesiosis, anaplasmosis and other tick-borne diseases

Lice
• Rapidly eliminates chewing lice infestations

FRONTLINE TOP SPOT is approved for use on all cats, including:
• Breeding, pregnant, and lactating queens
• Kittens as young as 8 weeks and weighing at least 1.5 lbs.

One spot application is all that’s needed: FRONTLINE TOP SPOT spreads from the single point of application, rapidly covering the entire cat and localizing in the hair, on the surface of the skin and in the sebaceous glands. These glands act as a reservoir, continuously replenishing FRONTLINE TOP SPOT onto the skin and hair coat, so it keeps working even if the cat gets wet.

Fleas, ticks, and chewing lice are killed quickly after coming into contact with a treated cat. Fleas and ticks do not need to bite the cat in order to die.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply product. TO PREVENT HARM TO YOU AND YOUR PET. READ ENTIRE LABEL AND DIRECTIONS BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. USE ON CATS ONLY. DO NOT USE ON RABBITS. DO NOT USE ON OTHER ANIMALS.

To kill fleas, flea eggs & larvae, ticks, and chewing lice apply FRONTLINE TOP SPOT for Cats as follows:
• To REMOVE Applicator: Lift and remove the plastic tab to expose foil backing; then peel away the foil. Or use scissors to open.
• OPEN Applicator

Hold upright with foil side toward you and snap applicator tip.
• APPLY FRONTLINE TOP SPOT

Part the cat’s hair above the shoulder blades, at the base of the neck. Place the applicator tip just above the skin and squeeze. Apply entire contents of the applicator in a single spot directly onto the cat’s skin. Do not apply on top of the hair coat. Avoid contact with treated area until dry. Do not allow the cat to ingest the product. Do not apply to cats weighing less than 1.5 lbs. or younger than 8 weeks of age. Do not use more than one application per cat per month.
FRONTLINE TOP SPOT for Cats is approved for use on all cats, including breeding, pregnant, and lactating queens and kittens as young as 8 weeks. FRONTLINE TOP SPOT remains effective even after bathing, water immersion, or exposure to sunlight.

**FREQUENCY OF APPLICATION**
When used monthly, FRONTLINE TOP SPOT completely breaks the flea life cycle and controls tick and chewing lice infestations. Do not reapply FRONTLINE TOP SPOT for 30 days. FRONTLINE TOP SPOT kills adult fleas, flea eggs, and flea larvae for up to six weeks. FRONTLINE TOP SPOT also prevents development of all flea stages for up to six weeks. FRONTLINE TOP SPOT can control fleas for up to six weeks, however, if there is a high risk of reinfestation or if the cat has fleas which may cause flea allergy dermatitis, a once monthly application may be needed. FRONTLINE TOP SPOT kills ticks for at least one month. A once monthly application is recommended where tick control is needed. FRONTLINE TOP SPOT kills all life stages of ticks (larva, nymph and adult). FRONTLINE TOP SPOT kills ticks that may transmit Lyme disease, haemobartonellosis, ehrlichiosis, babesiosis, anaplasmosis and other tick-borne diseases. FRONTLINE TOP SPOT kills chewing lice for at least one month. A once monthly application is recommended where chewing lice control is needed.

**STORAGE AND DISPOSAL**
Do not contaminate water, food, or feed by storage and disposal.

**STORAGE.** Store unused product in original container only, out of reach of children and animals.

**PESTICIDE DISPOSAL. If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused pesticide in the trash or down any indoor or outdoor drain.

**CONTAINER DISPOSAL. If empty:** Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

**FIRST AID**
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment or advice.

CAUTION
CAUTION
Keep out of reach of children
See full label for additional directions
To successfully control fleas and ticks, all dogs and cats must be treated with their own dose of FRONTLINE®.

Apply according to label instructions, ensuring the product is applied to the skin, not on top of the fur and not near the collar. It may be helpful to remove the collar before application, so it doesn’t absorb the product.

Remember, your pet needs to be dry at the time FRONTLINE is applied and remain dry 24 hours after application.

Verify pipette is empty after application (multiple squeezes may be necessary to apply the entire dose).

Even indoor pets need flea and tick control because you or other pets in the household may bring fleas into the home. These fleas can lead to a flea infestation.

The adult fleas on your pet may just be the tip of the infestation iceberg. It can take up to 3 months to get rid of a serious flea infestation because of all of the flea life stages that existed before you started using FRONTLINE.

The average flea life cycle in the home is about 21 days long.
To ensure continued protection of your pets, use these stickers as a reminder to apply and re-purchase FRONTLINE.

After treating your pet for the first time, peel off the sticker and place on your calendar that day.

Place the remaining stickers on your calendar as a reminder to apply FRONTLINE monthly.

Don’t forget to re-purchase!

6 Months
use all 6 stickers
