SUPPLEMENTAL LABELING

Thistrol® Herbicide EPA Reg. No. 71368-5

READ AND FOLLOW THE ENTIRE LABEL BOOKLET FOR THISTROL HERBICIDE BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS SUPPLEMENTAL LABELING

“Label” as used in this supplemental labeling for Thistrol Herbicide and this supplement.

MINT

For suppression of field bindweed (Convolvulus arvensis) and other broadleaf weeds listed on this label: Apply early post-emergence at the rate of 1 to 2 pints per acre (0.25 to 0.5 lb. acid equivalent/acre (lb. ae/acre)) in sufficient water for coverage.

Do not harvest the mint within 40 days of the application.

Field bindweed suppression improves as the runners begin to exceed 6 to 8 inches in length. Mint oil yields may be reduced if applications are made when the crop is 6 inches or more tall. Mint may be discolored or twisted, but the production benefits gained from suppressing bindweed typically far exceed the risk of mint injury.

For control of winter annual weeds listed, a fall application at 1 to 2 pints per acre (0.25 to 0.5 lb. ae/acre) may be applied. A single spring application works best for field bindweed suppression.

If tank mixed with other herbicides, test on a small area prior to full application (as the tank mixed application may result in significant damage to the mint).

Attention: Do not use this product if minor mint injury is unacceptable.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This label must be in the possession of the user at the time of application. All application directions and precautions in the Thistrol Herbicide label booklet must be followed.

Before using this product, read and carefully observe all application directions, restrictions, and precautionary statements in this booklet and on the container label.

NOTICE

Read the WARRANTY DISCLAIMER AND LIMITATION OF LIABILITY in the label booklet for Thistrol Herbicide before using this product. Those terms apply to this supplemental labeling and if those terms are not acceptable, return the product unopened at once.
