**ThermaCELL® Lantern**

** Mosquito Repellent Lantern**

**Repels Mosquitoes from an Average Size Deck or Outdoor Campsite**

**Provides 15 x 15 ft. area of repellency**

- Provides 15 x 15 ft. repellency, the size of an average deck or outdoor campsite
- Repels mosquitoes, black flies and other flying insects
- No sound or open flame
- Light provided by LEDs

**DIRECTIONS FOR USE**

**To Use the Light**
1. Remove battery cover on the bottom of the lantern. Install 3 AAA-size batteries (not included) (A). Replace battery cover.
2. Insert the mat under the grill at the top of the lantern (B). Insert repellent mat and butane cartridge into the lantern with the grill facing upward. (C)
3. Rotate collar to the left until the line points to “OFF” (D).
4. If lantern light does not turn on, replace batteries. When finished using the light, push the switch to the “OFF” position. (E)
5. Wait approximately 1 to 2 minutes then rotate collar further to the right until the indicator line points to “START”. (F)
6. To verify that the repellent is activated look at the small view hole located on the lantern collar to the right of the “START” button. An orange light will glow (G). If there is no orange light, rotate indicator line back to the “OFF” position and repeat step 6. (H)
7. If lantern light turns on, push the black switch on the bottom of the lantern to the “ON” position (I). If lantern light does not turn on, replace batteries. When finished using the light, push the switch to the “OFF” position. (J)

**To Use the Mosquito Repellent**
1. Remove one ThermaCELL® Mosquito Repellent mat from wrapper (C). Remove one ThermaCELL® mat from dispenser (D). 
2. Insert the mat under the grill at the top of the lantern (E).
3. Rotate the lantern collar to the right until the indicator line points to “START” (G).
4. Insert butane cartridge into the lantern (H). Make sure the cartridge is fully inserted.
5. To activate the mosquito repellent, grasp the lantern collar and rotate collar to the right until the indicator line points to “ON” (I).
6. The gas will begin to flow. (J)
7. Wait approximately 10 to 30 minutes, depending upon the size of the area, for product to take effect. This product provides 15 to 30 hours of repellency when heated for up to 12 hours.
