KEEPROUT OF THE REACH OF CHILDREN DANGER

PRECAUTIONARY STATEMENTS

Hazard To Humans and Domestic Animals:

DANGER: Causes irreversible eye damage and skin burns. Do not touch, either on skin, or on clothing. Harmful if swallowed or absorbed through skin. Wear protective eyewear (goggles and/or face shield), protective clothing and water-resistant gloves. Wash exposed skin with soap and water immediately after handling product, or until soap and water have been removed.

Considered a health hazard. If you feel ill, call a doctor immediately. This product is not for consumption. It is not appropriate for children. Keep out of the reach of children.

For Use in Dairy, Meat and Beverage Processing Facilities

Animal Health Sanitation Instructions:

Sterilex Ultra Powder is effective against a broad spectrum of microorganisms which include: Listeria monocytogenes (L. monocytogenes), Salmonella enterica (Salmonella) (ATCC# 10708)  Norovirus

Sterilex Ultra Powder must be dissolved in water before use. It must be applied as a 1% to 2% solution in water. It is not suitable for use as a disinfectant. It is not effective against viruses and fungi.

STERILEX ULTRA POWDER

Using Perquat®

Solid Floor Sanitizer
Solid Foot Pad, Boot Sanitizer
Sanitizing and decontaminating process

Enhanced traction

One-step Disinfectant – Cleaner
For use in Dairy, Food, Meat and Beverage Processing Facilities
Animal Processing Facility Sanitizing Cleaner

SANITIZING PRINCIPLES

Actively disinfects and decontaminates.
Strips organic material from surfaces.
Completely removes microorganisms, unless protected by nonporous barrier.

Active Ingredients:
Sodium Carbonate Peroxyhydrate ................................................................................................. 29.75%

STERILEX ULTRA POWDER

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

DANGERS: Causes irreversible eye damage and skin burns. If swallowed or absorbed through skin. Wear protective eyewear (goggles and/or face shield), protective clothing and waterproof gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID

IF IN EYES: Hold eye open and immediately rinse with plenty of water for 15 minutes. Remove contact lenses, if present, after rinsing. Get medical advice if irritation persists.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 minutes. Call a physician if irritation persists.

IF INHALED: Remove to a fresh air area. If symptoms occur, get medical advice.

IF SWALLOWED: Do not induce vomiting. Get medical advice.

PRECAUTIONS FOR USE

Stereotypes and Uses:
Dairy Processing Facilities
Meat Processing Facilities
Sterile Fruit and Vegetable processing
Wineries and breweries
Beverage and food manufacturing
Dairy farms
Swine farms
Poultry farms
Swine and poultry processing

PRECAUTIONS FOR USE

To prevent cross contamination on treated surfaces, set the entryway system to apply a

DIRECTIONS FOR USE

STERILEX ULTRA POWDER

sterilization solution for a 30 second basin surface treatment. After the 30 second treatment, re-introduce animals, livestock or birds until treatment is complete and water lines have been thoroughly rinsed with potable water. Do not house poultry or employ equipment until treatment has been absorbed, set, or dried. Thoroughly clean treated feed racks, water lines, air chillers, water and cooling spray lines. Prior to use in the water lines, remove all animals, livestock or birds from premises.

To ensure all animals are removed from the farm. Apply sanitizing solution to the line by adding 0.42 – 0.52 lbs of Sterilex Ultra Powder per gallon of water. Thoroughly treat all surfaces by pouring, wiping, scrubbing, foaming, spraying, spraying with a coarse sprayer, spitting and sponging. Allow surfaces to remain wet for at least 5 minutes. Do not rinse surfaces thoroughly with a potable water rinse. Use product within 8 hours after powder has been dissolved in water.

AVERAGE DISINFECTION DIRECTIONS

PRECLEANING DIRECTIONS:
Sterilex Ultra Powder in solution of 0.93 – 2 ounces Sterilex Ultra Powder per gallon of water (or equivalent solution). The disinfecting line must be completely empty, offer for recycling if available or dispose of bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

STERILEX CORPORATION
1801 71st Street
Menasha, Wisconsin 54952
Phone: 800-511-1659 or 443-541-8800
EPA REGISTRATION: 63761-5

Notes:
Buyers of Sterilex Ultra Powder should check with their local waste management and environmental coordinators to determine the best method for disposal of Sterilex Ultra Powder. Do not house poultry or employ equipment until treatment has been absorbed, set, or dried. Thoroughly clean treated feed racks, water lines, air chillers, water and cooling spray lines. Prior to use in the water lines, remove all animals, livestock or birds from premises.
STERILEX ULTRA POWDER
Using PerQuat®

**One-step Disinfectant – Cleaner**

For Use in Dairy, Meat and Beverages Processing Facilities
Animal and Dairy Farm Premise Disinfectant

**Active Ingredients:**

N-Alkyl (C1495%, C123%, C162%) dimethylbenzylammonium chloride .................................. 10.00%  
Salmonella enterica enteritidis (ATCC# 13076)  Rotavirus

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**PRECAUTIONS TO AVOID PERQUAT® TOXICITY:** Use with care. Incidental poisoning may occur. PerQuat® is a hospital-use disinfectant at 0.41 – 0.52 lb. per gallon (50 – 63 grams per liter), Bactericidal

**DISINFECTING AND SANITIZING OF NON-FOOD CONTACT SURFACES IN FARM AND DAIRY FARM PREMISES, SWINE PREMISES, FARM AND DAIRY FARM PREMISE EQUIPMENT, EQUIPMENT AND HARD SURFACES IN FOOD PROCESSING FACILITIES, BREWERIES, WINERIES AND Dairies, food products and packaging materials must be removed from the room or carefully protected. Follow all applicable local health and sanitation codes for sanitizing food processing equipment post-disinfection.

**DISINFECTING AND SANITIZING OF NON-FOOD CONTACT SURFACES IN REFRIGERATED TRUCKS**

**STORAGE AND DISPOSAL**

Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available or provided. Offer for disposal, if not recyclable.

**CONTAINER INFORMATION**

Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available or provided. Offer for disposal, if not recyclable.

**NOTICE TO PHYSICIAN:** Probable mucosal damage may occur. Use with care.
