AGRICULTURAL USE REQUIREMENTS
- Applications shall be made with a pressurized atomizer and be made in accordance with the product label. Spray equipment and nozzle design shall be adequate to produce a spray droplet size between 35 and 100 microns.
- Applications shall be made during the day and be conducted between 09:00 and 17:00 hours, as the chemical is more volatile during these hours.
- Care shall be taken to avoid spraying on or near water bodies, wetlands, or any other protected areas.

SPRAY DRAFT MANAGEMENT
- Applications shall be made in calm weather conditions (e.g., wind speed below 10 km/h, air temperature 30°C or less, and relative humidity 80% or less).
- Applications shall be made in a manner that minimizes drift and drift correction should be applied if drift occurs.
- Applications shall be made on a clear day with no rain forecast for at least 48 hours after application.

FOLIAR APPLICATIONS – DILUTE Sprays

COMBINED (OIL,▶️ Water) 66.6 Spreader Sticker Oil 75% Spreader Sticker oil 50% Spreader Sticker oil

Spray application rates

- Not appropriate for use on soybeans or other leguminous crops.
- Do not apply to soybeans, flax, or other oilseed crops at rates greater than 100 g/ha.
- Do not apply to non-oilseed crops at rates greater than 200 g/ha.

ADDENDUM PRECAUTIONS FOR AERIAL APPLICATIONS

- Do not use the aerial application method until at least 2 days after the last post-harvest application.
- Do not use the aerial application method until at least 3 days after the last post-treatment application.
- Do not use the aerial application method until at least 5 days after the last post的应用lication.
- Do not use the aerial application method until at least 7 days after the last post-application.

MIXING DIRECTIONS

- Mix the product with water using a mechanical mixer to achieve a uniform concentration.
- Mix the product with water using a mechanical mixer to achieve a uniform concentration.
- Mix the product with water using a mechanical mixer to achieve a uniform concentration.

NOTES:

- Do not use the aerial application method until at least 2 days after the last post-harvest application.
- Do not use the aerial application method until at least 3 days after the last post-treatment application.
- Do not use the aerial application method until at least 5 days after the last post-application.
- Do not use the aerial application method until at least 7 days after the last post-application.

TRANSPORT & STORAGE

- Store the product in a cool, dry place away from direct sunlight.
- Keep the product out of the reach of children.
- Observe the use-by date on the container.

DISPOSAL:

- Do not dispose of the product in the household waste stream.
- Do not pour the product into waterways or storm sewers.

SAFETY & HEALTH

- Read the label and follow all safety instructions before using the product.
- Wear appropriate personal protective equipment (PPE).
- Keep the product out of the reach of children.

ENVIRONMENTAL HAZARDS

- This product can cause harm to aquatic life and wildlife.
- Avoid spraying over or near water bodies, wetlands, or other sensitive areas.

PHYSICAL OR CHEMICAL HAZARDS

- Avoid contact with eyes or skin.
- Do not inhale the product vapor.

DIRECTIONS FOR USE

- Apply the product according to the label instructions.
- Apply the product in accordance with the label instructions.
- Apply the product using a boom sprayer with a spray area of 1000 m².

ACQUISITION & USE CONDITIONS

- This product is subject to acquisition and use conditions as specified in the label instructions.
- This product is subject to acquisition and use conditions as specified in the label instructions.
- This product is subject to acquisition and use conditions as specified in the label instructions.

SAFETY & HEALTH

- Read the label and follow all safety instructions before using the product.
- Wear appropriate personal protective equipment (PPE).
- Keep the product out of the reach of children.

ENVIRONMENTAL HAZARDS

- This product can cause harm to aquatic life and wildlife.
- Avoid spraying over or near water bodies, wetlands, or other sensitive areas.

PHYSICAL OR CHEMICAL HAZARDS

- Avoid contact with eyes or skin.
- Do not inhale the product vapor.

DIRECTIONS FOR USE

- Apply the product according to the label instructions.
- Apply the product in accordance with the label instructions.
- Apply the product using a boom sprayer with a spray area of 1000 m².
440 SUPERIOR SPRAY OIL

KEEP OUT OF REACH OF CHILDREN
CAUTION
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin, or clothing. Prolonged or frequently repeated contact may cause allergic reactions in some individuals.

FIRST AID
If on skin:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

If in eyes:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

If swallowed:
• Call a poison control center or doctor for treatment advice.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
• Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-892-0099 for emergency medical treatment information.

NOTE TO PHYSICIAN: This product contains petroleum distillates and may pose an aspiration pneumonia hazard.

EPA Reg. No. 2935-546
EPA Est. No. 2935-CA-17*, 2935-CA-19*, 2935-CA-31*
Superscript used is the first letter of the last number

For complete PRECAUTIONARY statements and DIRECTIONS FOR USE, see accompanying label.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are chemical-resistant to this product are barrier laminated and viton. If you want more options, follow the instructions for category G on an EPA chemical-resistance category selection chart.
Mixers, loaders, applicators, flaggers, and other handlers must wear:
• Long-sleeve shirt and long pants.
• Shoes plus socks, and
• Chemical-resistant gloves.
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product’s concentrate. Do not reuse them.

ENGINEERING CONTROLS
Pilots must use an enclosed cockpit that meets the requirements listed in the WPS for agricultural pesticides (40 CFR 170.240(d)(6)).

USER SAFETY RECOMMENDATIONS
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washer or rinseate. Do not contaminate water by washing articles used in the application of this product into a sanitary landfill.

PHYSICAL OR CHEMICAL HAZARDS
Do not use, pour or store near heat or open flame.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
PESTICIDE STORAGE: Keep pesticide in original container. Do not put concentrate or dilute pesticide into food or drink containers. Protect from water contamination during storage and transfer. Contamination with water may make this product unfit for its intended use. Always check emulsification (see Mixing Directions) before use. For help with any spill, leak, fire or explosion involving this material, call day or night 1-800-892-0099.
PESTICIDE DISPOSAL: Washes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

REFILLABLE CONTAINER (110 gallons or greater): Refill this container with pesticides only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning the container before refilling is the responsibility of the refiller.

Container Disposal: To clean the container before final disposal, empty the contents from this container into the production mix tank. Triple rinse the interior of the container with water by using a suitable hose and nozzle attachment or pressure rinsers. Collect and store the rinseate for proper disposal. Then, offer the container for recycling or reconditioning, or puncture and dispose of container in a sanitary landfill.

NONREFILLABLE CONTAINER (30 gallons): Do not reuse or refill this container.

Container Disposal: Triple rinse container (or equivalent) promptly after emptying. Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the container into application equipment or a mix tank or store rinseate for later use or disposal. Repeat this procedure two more times. Once cleaned, some agricultural plastic pesticide containers can be taken to a container collection site or picked up for recycling. To find the nearest site, contact your chemical dealer or manufacturer, or contact Ag Container Recycling Council (ACRC) at 877-952-2272 or perrino@acrecycle.org. Or, puncture and dispose of container in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

NONREFILLABLE CONTAINER (5 gallons): Do not reuse or refill this container.

Container Disposal: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Empty the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Once cleaned, some agricultural plastic pesticide containers can be taken to a container collection site or picked up for recycling. To find the nearest site, contact your chemical dealer or manufacturer, or contact Ag Container Recycling Council (ACRC) at 877-952-2272 or perrino@acrecycle.org. Or, puncture and dispose of container in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
