KEEP OUT OF REACH OF CHILDREN

This product contains zetacypermethrin, a pyrethroid insecticide, methrin, a pyrethroid insecticide, and piperonyl butoxide, a mixed-ester of piperonyl and butylcarbonyl (butylcarbityl)(6-propylpiperonyl) ether and related compounds. Other ingredients: 3-(2,2-dichloroethenyl)-2,2-dimethylcyclopropane-carboxylate. Total: 100.000 %

PEOPLE WHO SERIOUSLY OR EXTREMELY TOXIC TO

The application can be split into two 25 pound applications, or one single 50 pound application, per flock. These applications can occur as one application at the 50 lb. rate prior to the flock being placed in the broiler house, or as one application at the 25 lb. rate prior to the flock being placed in the broiler house and a second 25 lb. application occurring not later than three weeks prior to shipping the birds for slaughter. If one single application is made at the maximum rate of 50 lbs., slaughter cannot occur sooner than six weeks after application.

Before birds are placed in the house, raise the feeders and waters and apply four 14 to 36 inch bands of ZetaGard LBT Insecticide using a 14 to 36 inch drop style dust/granular applicator. Apply at a rate of 6.25 lbs. per 500 linear feet per band. Apply bands under each of two feed lines and each of two side walls. Do not treat less than three weeks prior to slaughter.

DO NOT APPLY TO ANIMAL FEEDSTUFFS OR WATERING EQUIPMENT

NET WEIGHT: 12.5 POUNDS (5.67 kg)
