Densil ZOD Antimicrobial

To Inhibit the Growth of Fungi and Algae in Paints and Stains, Masonry Coatings, Plasters, Caulks and Sealants, Stucco, Mastics, and Joint Cements.

ACTIVE INGREDIENT:
3-(3,4-dichlorophenyl)-1,1-dimethyl urea (Diuron) ..................15.0%
Zinc, 2-pyridineethiol-1-oxide .........................................10.0%
2-n-octyl-isothiazoline-3-one ......................................... 3.0%
Other Ingredients ............................................................72.0%
Total ..................................................................................100.0%

MANUFACTURED FOR:
Arch Chemicals, Inc.
5660 New Northside Drive, Suite 1100
Atlanta, GA 30328
Made in USA

DENSIL® is a registered trademark of Arch UK Biocides, Limited

EPA Reg. No. 1258-1345

EPA EST NO. 1258-NY-3
NET WEIGHT: 530 LBS
STORAGE AND DISPOSAL:
Do not contaminate water, food, or feed by storage or disposal or cleaning of equipment.

PESTICIDE STORAGE: Store in a cool place. Protect from excessive heat.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container promptly after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by procedures approved by state and local authorities.

Triple rinse as follows: Fill container ¼ full with water. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Follow Pesticide Disposal instructions for rinsate disposal. Repeat this procedure two more times.

DIRECTIONS FOR USE
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

Do not apply this product in a way that will contact workers or other persons.

Densil ZOD Antimicrobial is an antimicrobial preservative to inhibit the growth of fungi and algae in Paints and Stains, Masonry Coatings, Plasters, Caulks and Sealants, Stucco, Mastics, and Joint Cements.

Densil ZOD Antimicrobial is typically effective when applied at the suggested concentrations shown. All concentrations are based on the total formulation weight. Add Densil ZOD Antimicrobial to paints and coatings at the end of the manufacturing cycle, at a point in the process where thorough mixing of Densil ZOD Antimicrobial into the preserved product will occur.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal or cleaning of equipment.

PESTICIDE STORAGE: Store in a cool place. Protect from excessive heat.

PESTICIDE DISPOSAL: Pesticide waste is an hazardous waste. Improper disposal of excess pesticide, spray mixture, or container is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pollution or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Transferate container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container thoroughly after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by procedures approved by state environmental authorities.

Triple rinse as follows: Fill container 3/4 full with water. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Rinse the container on its side and tip it back and forth several times. Follow prompt Disposal Instructions for empty container. Rinse the product from the container.

REASONABLE CARE OF THE PRODUCT

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELLING

Do not apply the pesticide any that will contaminate food or other products.

Densil ZOD Antimicrobial is an antimicrobial preservative to inhibit the growth of fungi and algae in plastics and glass, Wurster Chalco, Plastics, Ceramics, and Glassware, and Textiles, and other materials.

Densil ZOD Antimicrobial is a specialty product when applied in the suggested concentration range. All concentrations are based on the total solution weight. All Densil ZOD Antimicrobial tests were completed at the end of the recommended cycle, at least in the specific antimicrobial areas of Densil ZOD Antimicrobial and the measured results were .
