INSECTICIDE

- Shock hazard.
- Exposure to temperatures above 120°F may cause bursting.

PHYSICAL & CHEMICAL HAZARDS

- Apply directly to water or to areas where surface water is present or
  through cracks and crevices in cabinets, drawers, shelves, beneath
  and behind refrigerators, washing machines, and stoves. Make spot
  treatments in corners, to flooring beneath furniture, in closets and
  storage areas.

ENVIRONMENTAL HAZARDS

- Do not apply directly to impervious horizontal surfaces such as
  sideways, driveways, and patios except as a spot or crack and crevice
treatment. During application, do not permit people or pets to enter or run off
  into storm drains, ditches, gutters, or surface waters.
- All outdoor applications must be limited to spot or crack and crevice
treatments only.
- Odorless and colorless, this product has an emergency 1.5 second
  pigs, cattle, and horses. It can also be used for horses, cattle, and sheep.

OTHER INGREDIENTS:

- Cyfluthrin, Cyano(4-fluoro-3-phenoxyphenyl)methyl 3-(2,2-dichloroethenyl)
- Imidacloprid, 1-[(6-Chloro-3-pyridinyl)methyl]-N-nitro-2-imidazolidinimine

Will not damage paints, plastics, fabrics, or other surfaces where water alone causes no damage

For indoor or outdoor use as either a crack and crevice injection or spot treatment. Use this product with the supplied actuator or injection tube; this product can also be used in aerosol application equipment.

Application Restrictions:
- Do not contact treated surfaces until dry. People and pets may re-enter after the treated area is dry.
- Do not apply in food/feed areas of food and feed handling establishments.
- Do not apply in classrooms, hospital, and/or nursing home rooms while they are occupied.
- Do not treat areas of upholstery or wallpaper where prolonged contact with humans will occur.
- Do not spray bed linen or other materials which come in direct contact with occupant of the bed.
- In the home, cover thoroughly wash all food processing surfaces and utensils following treatment. Cover exposed food or remove from area being treated.
- Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack and crevice treatment. During application, do not permit people or pets to enter or run off into storm drains, ditches, gutters, or surface waters.
- All outdoor applications must be limited to spot or crack and crevice treatments only.
- Do not apply this product, by any application method, to linden, basswood, or other Tilia species.

When to apply:
- Apply when pests are seen or found. Reapply every 7
  to 10 days until infestation is eliminated.

Crack and crevice treatment:
- Inject into cracks and crevices or hollow spaces where insects may be harboring, living, and breeding. Place
  injector tip into cracks, crevices, holes, and other small openings. In
  light infestations or maintenance treatments, move the
  injection tube along cracks and crevices at the rate of 1 lineal foot per second.
  For heavy infestations or clean-out treatments, move the injection tube
  along cracks and crevices at the rate of 6 inches per second. In
  enclosed void spaces, after calculating the void's cubic area, apply
  by 1/2 of a lineal 2 feet per cubic feet. Several holes may be required in
  long-running voids.

Spot treatment:
- Hold nozzles between 12 to 18 inches from the surface
  to be treated. Release product at a rate of 4 seconds per 2 square feet.
  Each spot treatment must not exceed 2 square feet. Glue
  cracks and crevices in cabinets, drawers, shelves, beneath
  and behind refrigerators, washing machines, and stoves. Make spot
  treatments in corners, to flooring beneath furniture, in closets and
  storage areas.

Outdoors, apply as a crack and crevice or spot treatment to surfaces on
- buildings, porches, patios, and other structures, openings around doors
  and windows, eaves and attic vents, utility entry points, weep holes,
  cracks and other entry points (including foundation cracks or
drilled holes) where these pests may enter or be used to enter or exit
  through cracks and crevices in cabinets, drawers, shelves, beneath
  and behind refrigerators, washing machines, and stoves. Make spot
  treatments in corners, to flooring beneath furniture, in closets and
  storage areas.

Precautionary Statements

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to wildlife, fish, and aquatic invertebrates.

Care should be used when spraying around ornamental ponds. Do not
apply directly to water or to areas where water surface is present or
contaminated areas below the mean high water mark.

PHYSICAL & CHEMICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container.

Exposure to temperatures above 120°F may cause burning.

Do not apply directly into any electrical equipment such as radios,
television, computers, etc. (where there is exposed wiring or contact points) due to the possibility of short circuits and shock hazard.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Shake well before use.
