**Sanitizing Food Contact Surfaces:**

**DIRECTIONS FOR USE:**

1. **Remove food particles by flushing with water or scraping.**
2. **Wash with a detergent solution.**
3. **Rinse with potable water.**
4. **Sanitize with a concentration of 1 fluid ounce of Demand per 4 gallons of water (1:512) by immersion, coarse spray or circulation.**
5. **Allow sanitizer solution to contact surfaces for at least 1 minute.**
6. **Drain thoroughly. Do not rinse.**

Circulation Sanitizing (CIP)

- Fill the system. Pump sanitizer through the equipment, valves and lines to obtain a sufficient volume of sanitizing solution by diluting 1 fluid ounce of Demand per 4 gallons of water (1:512).
- Allow sanitizer solution to contact surfaces for at least 1 minute.
- Remove gross food particles by flushing with water, then wash with a detergent solution. Prepare a sufficient volume of sanitizing solution by diluting 1 fluid ounce of Demand per 4 gallons of water (1:512) to fill a circulation mix tank. Prepare solution every time you clean or sanitizing equipment and before cleaning and sanitizing single-use equipment.
- Circulate to insure that all surfaces are wet for at least 1 minute.
- When tested with a Demand Test Kit, discard and prepare additional sanitizer. Sprayed or circulated sanitizer solutions may not be reused for sanitizing.

Cutoff 5"

- Backing for a logo be 5.00" high at 72 ppi.

**PHYSICAL AND CHEMICAL PROPERTY**

**ACIDIC PRODUCT**

Do not mix with other cleaners or chemicals as hazardous gasses or heat may be generated. Follow other warnings or chemical hazards on label.

**HAZARD TO HUMANS AND DOMESTIC ANIMALS**

**PRECAUTIONARY STATEMENTS**

**FIRST AID**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 seconds after the flow begins to drip. Repeat this procedure two more times. Offer container for recycling, if available.

**IF INHALED:** Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting except if advised to do so by a Poison Control Center or doctor. Call a Poision Control Center or doctor immediately for treatment advice. Make person comfortable. Do not give anything by mouth to an unconscious person.

**IF SWALLOWED:** Call a Poison Control Center or doctor immediately for treatment advice. Do not give anything by mouth to an unconscious person. Rinse the mouth and throat with water if the mix was swallowed. Call a Poison Control Center or doctor immediately for treatment advice. Make person comfortable. Do not give anything by mouth to an unconscious person.

**Note to Physician:** Probable mucosal damage may contraindicate gastric lavage. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Move person to fresh air. Call a Poison Control Center or doctor immediately for treatment advice. Expose person to fresh air. Keep person at rest in a comfortable position; do not give anything by mouth to an unconscious person. Call a Poison Control Center or doctor immediately for treatment advice. Keep person at rest in a comfortable position; do not give anything by mouth to an unconscious person.

**HAZARDOUS SUBSTANCES**

**ACIDIC PRODUCT**

Do not mix with other cleaners or chemicals as hazardous gasses or heat may be generated. Follow other warnings or chemical hazards on label.

**PESTICIDE STORAGE**

Do not contaminate water, food, or feed by storage or disposal. Store in original container in areas inaccessible to children. Do not reuse empty container.

**STORAGE AND DISPOSAL**

- Store in a cool, dry location out of the reach of children. Do not use or store near food, food products, food preparation equipment, or food contact surfaces. Do not apply near or on vegetable or fruit-bearing plants, flowers, ground cover, or ornamental plants. Do not apply on or near seeds or other crops in a manner that will bring treated seeds into contact with a treatment. Do not contaminate water, food, or feed by storage or disposal. Keep from freezing. Do not contaminate water, food, or feed by storage or disposal. Keep from freezing.
Demand is recommended for use on pre-cleaned food contact surfaces such as food processing equipment, plants, tanks, vats, fillers, evaporators and pipelines. This product is an effective sanitizer when the sanitizing solution is prepared in water up to 50°F (10°C) and calculated as Ca(OCl).

**DIRECTIONS FOR USE:**
1. Remove gross food particles by flushing with water or scraping.
2. Wash with a detergent solution.
3. Rinse with potable water.
4. Sanitize with a concentration of 1 fluid ounce of Demand per 1-gallon of water (1:50) for 1 minute. A 20-minute contact time is recommended for maximum sanitizing effectiveness.
5. Allow sanitizing solution to contact surfaces for at least 1 minute.
6. Short thermostat (30 seconds).
7. Circulate: flushing (CFP): Remove gross food particles by flushing with water, then wash with a detergent solution. Prepare a sufficient volume of sanitizing solution by diluting 1 fluid ounce of Demand per gallon of water (1:50) to fill a system. Pump solution through the equipment, valves and lines to obtain a full return flow that is free of air. Circulate to insure that all surfaces are wet for at least 1 minute. Do not mix with other cleaners or chemicals as hazardous gases or heat may be generated. Dilute only with water. ACIDIC PRODUCT - PHYSICAL AND CHEMICAL HAZARDS: Demand® is a low foaming anionic acid sanitizer. It is a corrosive, liquid sanitizer. Do not apply to the product in a manner inconsistent with its labeling. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or inhaled. May be harmful if contacted with the eye. Do not get in eyes, on skin or on clothing. Causes damage to mucous membranes, skin and eyes. Wear chemical splash-proof goggles, rubber gloves and protective clothing. Wash hands thoroughly with soap and water after the first 5 minutes, then continue rinsing eye.
