Acidosan D

Cleaner & Sanitizer
For the Dairy Industry

FRESH MILK STONE REMOVAL

KEEP OUT OF REACH OF CHILDREN

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then rinse again for at least 15 minutes. Get medical attention.

If on skin or clothing: Take off contaminated clothing and wash before reuse. Remove contamination from skin with soap and water. Wash contaminated clothing before reuse.

If swallowed: Do not induce vomiting unless told to do so by the poison control center. Do not give anything by mouth to an unconscious person.

Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration. Call a poison control center or doctor for treatment advice.

diluted Acidosan-D

Acidosan-D

**ACTIVE INGREDIENTS**

- Total: 90.0%
- n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides: 5.0%

**OTHER INGREDIENTS**

- Free water

**RECOMMENDATIONS**

- 120 ppm active quaternary solution
- 200 ppm active quaternary solution
- 200 ppm active quat

Acidosan D
Cleaner & Sanitizer
For the Dairy Industry

DIRECTIONS FOR USE:
For the Dairy Industry

KEEP OUT OF REACH OF CHILDREN.

Acidosan D

Some agents adhering to the water has been removed by boiling treatments, recontaminating the water with calcium carbonate. This product when used at 1 to 100 parts per million (ppm) calcium carbonate or magnesium or in the following manner:

A. Hose down facility to moisten, followed by spraying for at least 30 seconds and let air dry. Do not rinse equipment with water after treatment.

B. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

C. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

D. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

E. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

F. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

G. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

H. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

I. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

J. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

K. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

L. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

M. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

N. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

O. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

P. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

Q. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

R. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

S. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

T. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

U. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

V. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

W. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

X. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

Y. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

Z. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

AA. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

BB. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

CC. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

DD. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

EE. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

FF. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

GG. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

HH. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

II. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

JJ. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

KK. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

LL. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

MM. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

NN. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

OO. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

PP. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

QQ. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

RR. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

SS. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

TT. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

UU. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

VV. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

WW. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

XX. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

YY. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

ZZ. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

AAA. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

BBB. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

CCC. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

DDD. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

EEE. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

FFF. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

GGG. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

HHH. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

III. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

JJJ. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

KKK. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

LLL. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

MMM. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

NNN. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

OOO. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

PPP. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

QQQ. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

PPP. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

QQQ. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

PPP. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

QQQ. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

PPP. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

QQQ. Apply the solution and let air dry. Do not rinse equipment with water after treatment.

PPP. Spraying for at least 60 seconds and let air dry. Do not rinse equipment with water after treatment.

QQQ. Apply the solution and let air dry. Do not rinse equipment with water after treatment.
