Pool & Spa Shock Quick

3 Treats 10,000 Gallons of Water

First Aid: Call a poison control center (1-866-366-5048) or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF INHALED: Move person to fresh air. IF INHALED: Move person to fresh air. IF SWALLOWED: Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ACTIVE INGREDIENT:
Trichloro-s-triazinetrione........ 40.0%
OTHER INGREDIENTS............ 60.0%
TOTAL.......................... 100.0%
(36.0% Available Chlorine)

NET WT 11 OZ (0.68 LB) 311 g
CLOROX™ Pool & Spa ShockQuick / 10 Advantages: This patented blend of ingredients works fast allowing swimmers back into the pool in just 15 minutes†. This is a premium grade shock product, so it takes only 11 oz of CLOROX™ Pool & Spa ShockQuick / 10 to treat 10,000 gallons of pool water weekly. CLOROX™ Pool & Spa ShockQuick / 10 can be added directly into the water without pre-dissolving and it is ideal for all types of swimming pools. It destroys swimmer wastes and other impurities that cause cloudy water. CLOROX™ Pool & Spa ShockQuick / 10 dissolves faster than ordinary shock products without leaving residue. It does not increase the pH of the pool water or contain calcium that causes scale build-up.

DO NOT PRE-DISSOLVE IN CONTAINER (i.e. bucket) BEFORE APPLYING.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DAILY USE: Regularly check chlorine residual with a test kit and chlorinate daily or as needed to maintain 1.0 to 1.5 ppm residual chlorine.

NOTE: 2 oz of this compound per 5,000 gallons of pool water will increase an existing chlorine level by 1.0 ppm (1/8 rounded measuring cup = 1 oz).

**WEEKLY USE:**

1. Check the pH of the pool water daily, adding sodium bisulfate (CLOROX™ Pool & Spa pH Minus) or soda ash (CLOROX™ Pool & Spa pH Plus) or equivalent products as necessary to maintain pH in the 7.2-7.6 range.

2. CLOROX™ Pool & Spa ShockQuick / 10 is made up of fine particles that dissolve almost instantly when applied to water. Use the entire bag for each application. Pour a steady stream of CLOROX™ Pool & Spa ShockQuick / 10 into the deep end of the pool. Pour near the water surface (particularly if the wind is present while applying) to ensure the entire dose enters the water.

3. Operate the pump system 4-8 hours (minimum) after applying CLOROX™ Pool & Spa ShockQuick / 10.

4. Use 11 oz of CLOROX™ Pool & Spa ShockQuick / 10 to treat 10,000 gallons of pool water every week or more often if necessary.

SUPER-CHLORINATION: Whenever the pool water loses its sparkle, turns green or the chlorine residual falls rapidly after regular chlorination, super chlorinate the pool. During the summer months, super chlorinate pool with 11 oz per 4,500 gallons of pool water every 10 to 14 days. Do not use the pool until the chlorine residual has dropped to 3 ppm.

† Pool may be used in 15 minutes after adding this product only when chlorine level is at or below 3 ppm.
PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
DANGER. CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through
the skin. May be fatal if inhaled. Do not breathe dust or spray mist. Irritating to nose and throat. Harmful
if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing
and rubber gloves when handling this product. Wash thoroughly with soap and water after handling
and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated
clothing and wash clothing before reuse. ENVIRONMENTAL HAZARDS: This product is toxic to fish
and aquatic organisms. PHYSICAL OR CHEMICAL HAZARD: STRONG OXIDIZING AGENT. WILL BURN
WITH THE EVOLUTION OF CHLORINE OR EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY
LIBERATES IRRITATING AND HAZARDOUS CHLORINE-CONTAINING GASES. DECOMPOSES AT 460°F TO
480°F WITH THE LIBERATION OF HARMFUL GASES. Mix only with water. Use clean, dry utensils. Do not add
this product to any dispensing device containing remnants of any other product. Such use may cause
a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other
chemicals may start a chemical reaction with the generation of heat, liberation of hazardous gases
and possible generation of fire or explosion. IN CASE OF FIRE, if possible, isolate container in open air or
well-ventilated area. Flood with a large volume of water. IN CASE OF CONTAMINATION OR DECOMPOSITION,
do not reseal container.

STORAGE AND DISPOSAL:
STORAGE: Keep product in tightly closed container when not in use. Store in a pool, dry, well-ventilated
area away from heat or open flame. In case of decomposition, isolate container in open area if possible,
and flood with large amounts of water. CONTAINER HANDLING: Nonrefillable container. Do not reuse
or refill this container. IF EMPTY: Place in trash collection or offer for recycling if available. IF PARTLY
FILLED: Call your local solid waste agency for disposal instruction. Never place unused product down
any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
DANGER: CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if absorbed through the skin. May be fatal if inhaled. Do not breathe dust or spray mist. Immediate medical assistance. Harmful if swallowed. Do not get in eyes or on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after hand, irrigate before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse. ENVIRONMENTAL HAZARDS. This product is toxic to fish and aquatic organisms. PHYSICAL OR CHEMICAL HAZARD: STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE OR EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRITATING AND HAZARDOUS CHLORINE CONTAINING GASES. DECOMPOSES AT 460°F TO 480°F WITH THE LIBERATION OF HARMFUL GASES. Mix only with water. Use clear or dry terrorists. Do not add this product to any dispersing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with the generation of heat, liberation of hazardous gases and possible explosion of the mixture.

IN CASE OF FIRE: It is permissible to use chemical foam, dry chemical, CO2, or Halon. Do not use water or a foam containing soap. Place a shield on the operator. Use a Class B foam.

IN CASE OF CONTAMINATION OR DECOMPOSITION, do not reseal container.

STORAGE AND DISPOSAL:
STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container in safe area. Do not store with food. CONTAINER HANDLING: Non-releasable container. Do not reuse or refill this container. IF EMPTY: Place in trash collection or offer for recycling if available. IF PARTIALLY FILLED: Call your local solid waste agency for disposal instruction. Never place unused product down any indoor or outdoor drain.
