HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

PREGNANCY CATEGORY: C

DIRECTIONS FOR USE:

For sanitizing and cleaning: Dilute 2 oz per gallon of water. Use at the rate of 1 gallon per 500 square feet. Use under normal water pressure. Use a regular spray equipment. Apply as a wet film on the surface to be treated. To reduce the possibility of cross-contamination, switch to clean equipment between treatments on different areas. Indefinite shelf life when stored in a cool, dry location.

STORAGE & DISPOSAL

Do not store outside. Keep in original container. For refuse disposal, call your local waste management agency.

PREPARATION FOR USE: In sink and floor drains and trunk lines, effective foaming sanitizer. Use 2 oz per gallon in sink and floor drains. Use 5 oz per gallon in trunk lines against the following pathogenic organisms:

- Listeria monocytogenes
- Staphylococcus aureus
- Enterobacter aerogenes
- E. coli

For hard non-porous surfaces such as floors, drain covers: Add 2 oz of Sanitizing Wash 'n Walk per 1 gallon of water to sanitize non-food contact surfaces when used at 2 oz per gallon. Effective against:

- L. monocytogenes
- S. aureus
- E. coli
- E. coli O157

Ensure that water is free of iron. Use of this product does not alter concentration of water hardness. When using with hard water, saponify with ample soap to prevent scumming. Sanitize areas by flooding the floor or liberally applying with a mop. Treated surfaces must remain wet for 5 minutes. Scrub with a deck brush, squeegee to drain. Allow to air dry. DO NOT LEAVE WATER IN CONTACT WITH SURFACE FOR MORE THAN 5 MINUTES.
