FREE POOL CARE ADVICE 1-800-505-POOL

Minimize: Note to physician: Probable mucosal damage may contribute to the use of gastric lavage.
Mucous or vomit, if aspirated or swallowed. DO NOT induce vomiting unless told to do so by doctor or by a center of treatment. Do not give anything by mouth in an intentional or a self-inflicted ingestion. If swallowed or inhaled, if inhaled, move person to fresh air. If person is not breathing, contact your local poison control center or doctor for treatment. If in eyes: Hold eye open and flush slowly with water for 15-20 minutes, removing any contact lenses, if present. Flush for at least 5 minutes. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water. If water is unable to wash, do not rinse, wipe off dye 20 min with soap and water. If water is unable to wash, do not rinse, wipe off dye for 20 min. First Aid: Call a poison control center or doctor for treatment advice. Keep the container, or label with you when calling poison control.

5-Step Pool Care System
PART # 116619

Step 3
**POOL MAINTENANCE**

**SUPER CHLORINATION**

Use the pool until the chlorine residual has dropped to ppm.

*During Super-Chlorination*

- Pool may be used in 15 minutes after adding the product only when chlorine level is 0 ppm.

1. Use the pool until the chlorine residual has dropped to ppm.

2. Super-Chlorination whenever the pool water loses its springtime lime green or the chlorine level falls rapidly after regular chlorination. Super-chlorinate the pool during the summer months, especially chloramine pool with 10 to 500 gallons of pool water.

**SUPER CHLORINATION**

Every week or more often if necessary.

4. Use 1 to 2 gallons of AquaGuard Shock Quick to treat 12,000 to 15,000 gallons of pool water.

5. Operate the pump system 4 hours (minimum) after applying AquaGuard Shock Quick.

- Complete the water treatment while applying to ensure the entire dosage is applied.

- If the pool is clean when applying AquaGuard Shock Quick, it's made up of the finest-grade calcium hypochlorite tablets.

**WEEKLY USE:**

1. Check the pH of the pool water daily. Adding sodium bicarbonate (AquaGuard pH) may be necessary to correct the pH.

**DIRECTIONS FOR USE:**

- Use 3 to 5 packets of AquaGuard Shock Quick to treat 12,000 to 15,000 gallons of pool water. The product is effective when used within 24 hours of application.

**NOTE:** Keep the pH of the compound per 5,000 gallons of pool water will increase an existing chlorine level by 1.0 ppm (1/8 rounded measuring cup = 1 oz).

**DAILY USE:**

Regularly shock chlorine residual with a test kit and chlorinate daily as needed.

**EXCEPTIONS TO USE:**

- If a violation of Federal law to use this product in a manner inconsistent with the label.

**Do Not Pre-Dissolve in Container.**

**Building-up residues 1.0 ppm or chlorine stockpiles that cause scale deposits.**

**AquaGuard Shock Quick dissolved for ordinary shock products without leaching.**

**AquaGuard Shock Quick cannot become a chloramine pool.**

**AquaGuard Shock Quick can be used directly into the water without pre-dissolving and is ideal for all types of swimming pools.**

**AquaGuard Shock Quick can be used directly into the water without pre-dissolving and is ideal for all types of swimming pools.**

**The product is used on the surface of the pool water.**

**AquaGuard Shock Quick Advantages:**

- No pre-dissolving required.

- Fast acting, leaving the water crystal clear.

- No build-up residues.

- Effective within 1 hour of application.
**STORAGE AND DISPOSAL:**

1. Keep product in tightly closed containers when not in use. Store in a cool, dry, well-ventilated area.

**CASE OF CONTAMINATION OR DECOMPOSITION:** Do not accept container.

**Physical or Chemical Hazards:**

Environmental Hazards: This product is toxic to fish and aquatic organisms.

**Precautionary Statements:**

**Danger (Hazards):** Causes severe burns of skin and eyes, injury to lungs and internal organs. May be fatal if inhaled, swallowed, or injected. Do not breathe dust or vapor. Avoid contact with eyes, skin, or clothing. Wear gloves when handling the product. Wash thoroughly with soap and water after handling and before eating, drinking, smoking, or using tobacco. Do not contaminate drinking water, food, or feed by improper disposal. Do not contaminate surfaces that could contact drinking water or food sources.

**Prevention:** Do not contaminate any means of water storage with this product. Do not contaminate rainwater collection areas. Do not contaminate potable water supplies. Do not contaminate waterways or other water sources.

**Physical Properties:**

- Color: Colorless or nearly colorless
- Odor: Odorless
- Odor Threshold: N/A
- Melting Point: N/A
- Boiling Point: N/A
- Specific Gravity: N/A
