PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep out of reach of children. Flammable liquid and vapor. Corrosive. Causes eye and skin damage. Hardly fatal if swallowed. Do not get into eyes, on skin, or on clothing. May be fatal if inhaled. Do not breathe vapor or spray mist. Wear a mask or protective respiratory equipment, safety glasses, and rubber gloves. Wash thoroughly after handling and with soap and water, and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

IF IN EYES: Hold eye open and flush with large amounts of water for 15-20 minutes. Remove contact lenses, if present. After the first 3 minutes, continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INhaled: Get fresh air. If breathing is difficult, give oxygen. Call a poison control center or doctor for treatment advice.

IF SKIN CONTACT: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-30 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

IF INHALED: Move person to fresh air. If person is not breathing, give CPR. Call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth method, if possible.

Call a poison control center or doctor for further treatment advice.

Note to Physicians: Probable mucous membrane damage may contaminate the use of gastric lavage. Measure against circulatory shock, respiratory depression, and convulsion may be needed. Have the product container or label with you when calling a poison control center or doctor.
