Lesco CrossCheck® 0.069% Plus Fertilizer

For use by individuals/organizations licensed or registered by the state to apply insecticide products. For use to control ants (including imported fire ants), mole crickets, and other listed pests on turf in landscaped areas around residential, institutional, public, commercial and industrial buildings, parks, recreational areas and athletic fields.

Active Ingredient:
Bifenthrin .......................................................... 0.069% Other Ingredients .................................................. 99.931%

Environmental Hazards
This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply when weather conditions favor drip from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. To protect the environment, do not allow pesticide to come in contact with storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not slow or wash pesticide off the treated area. Sweeping any product that lands on a driveway, sidewalk, or street back onto the treated area of the lawn will help to prevent run off to water bodies or drainage systems.

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
Caution: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Storage and Disposal
Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use close tightly. In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confinement to Spill:
To Confinement Spill: Cover equipment. Place damaged package in a holding container. Identify contents. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Disposal: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available, or dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Turf and Perimeter Applications
Perimeter Application: Apply 3.33 to 6.68 pounds per 1,000 sq ft. to turf areas 6 to 10 feet wide around and adjacent to the structure.
Turf Application: Apply Lesco CrossCheck® 0.069% Plus Fertilizer with suitable broadcast application equipment to ensure uniform coverage over the treated area. Apply 3.33 to 6.68 pounds per 1,000 sq ft. to control the following insects:
