Algae Clear
Controls the growth of algae in swimming pools
50% strength
Non-foaming formula

Algae Clear
Controls the growth of algae in swimming pools
50% strength
Non-foaming formula

ACTIVE INGREDIENT:
Alkyl [C₉₋₁₆; C₁₀₋₁₅; C₁₂₋₁₆; C₁₃₋₁₅; C₁₄₋₁₆]
dimethyl benzyl ammonium chloride .................................. 50.0%
OTHER INGREDIENTS: ........................................................ 50.0%
TOTAL: ........................................................................ 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER
See back panel for Precautionary Statements and First Aid.

NET CONTENTS: 2 x 1 QT.
DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SWIMMING POOLS
Pace Algae Clear must be added along pool edges while filter and pump are in operation. To provide time for even distribution in the pool water, bothers should wait a minimum of 15 minutes after Pace Algae Clear addition before entering the pool.

INITIAL APPLICATION:
Initially, add 1.5 oz. for each 1,000 gallons of water 1/4 pint or 6 oz. for each 1,000 gallons of water 3/4 pint active quaternary. After 4 hours, remove dead algae by cleaning if algae are still present, repeat dosage as necessary.

Clean Pools
For initial treatment of clean pools, add 6 to 8 fl. oz. of Pace Algae Clear for every 10,000 gallons of water 2 to 3 pint active quaternary.

Maintenance Doses
Maintenance additions of 2 to 3 oz. per 10,000 gallons 0.5 to 1 pint active quaternary must be added every 2 to 7 days, or more frequently depending on visibility and water conditions. A booster dose of 2 fl. oz. per 10,000 gallons 0.5 pint active quaternary must be provided after each rain.

Sunlight, water temperature, number of occupants, and frequency of pool use, all affect the rate of algae growth. Always maintain chlorine levels between 1-3 ppm. Check water photically, pH and calcium hardness with a test kit or test strip. Ensure all pool equipment is working properly. Clean or backwash the filter following manufacturer instructions.

FOR WINTERIZATION
1. Add Pace Algae Clear inside the pool in swimming pools during the winter months, when the pool is not in service.
2. Treat water for hardness, alkalinity, pH and the presence of metals. Take corrective action if necessary.
3. Superchlorinate the pool using the recommended winter shock treatment according to label directions.
4. Apply Pace Algae Clear directly to the pool water, per instructions for maintaining the algae in the pool. Use 1.5 oz. per 10,000 gallons of water 3/4 pint active quaternary and allow to circulate 2 to 4 hours. Pools without covers may need a second treatment in mid-winter or just prior to freezing.
5. Clean pool piping and filter in geographical areas that experience freezing, drain pool equipment and plumbing lines, or use an antifreeze recommended for swimming pool plumbing and equipment.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive, caus caus tous to eye damage and skin burns. May be fatal if swallowed or inhaled. Harmful if ingested through the skin. Do not get in eyes, on skin or on clothing. Wear safety glasses when applying. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first few minutes. If irritation persists, call a poison control center or doctor for treatment advice.

IF SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Never give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

IN CASE OF EMERGENCY CALL 1-800-854-9411
Have the product container or label with you when calling a poison control center or doctor or going to treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS:
This product is toxic to fresh and brackish water organisms.
PHYSICAL OR CHEMICAL HAZARDS:
Corrosive. Do not use or store near heat or flames.

STORAGE AND DISPOSAL:
Store original container in a secure location inaccessible to children. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.
